WORLD WIDE GALE DAMAGE

REPORT KING GEORGE IS SLIGHTLY IMPROVED

HIGHER THEIR RANK, MORE THEY CAN BE KIDDED, WILL FINDS

(Special To The News)

NEW YORK, Nov. 27.—An old friend of mine, Mr. Paul Block, hopped on me for joking prominent men. Well, they all come back in the dressing room afterwards and don't seem much hurt.

Among the insulted last week was Gen. Pershing, Barney Baruch, Herbert Swope, and Charley Schwab.

He says I kidded Yale's football team.. I did that up in New Haven with out show and the boys all took it good naturedly.

He says I owe Hearst five grand. That I admit. I been waiting, hoping that Coolidge would veto the election and save me the five.

Now Paul, don't take these big men so serious. When you meet 'em and know 'em they dre as human as anybody.

So the next time you come I will introduce you and you will come back and we will finally decide that most people need kidding.

Yours,

WILL.

PA NEWC OBSERVES

There will be no issue of The News on Thursday, Thanksgiving Day.

Did you see the eclipse of the moon this morning? Neither did we. The eclipse took place between 4 and 5 o'clock. Probably the milk man got a glimpse of it. The eclipse was hardly visible.

With the first snowfall of the season, the recurrent problem of where boys are to coast is with us again. Pa Newc saw the boys sledriding on some streets last night, where the practice was exceptionally dangerous. North Mercer street between Grant and Falls for instance.

Quite a large gang was enjoying coasting on east Sheridan avenue, and this didn't appear to be so dangerous.

Fire Chief Lynn's orders that fire hydrants be tested regularly during the cold weather is one that should be enforced to the limit. Frequently, in years past, it has been found that hydrants were frozen when they were badly needed.

It looks as if old man winter is here to stay. The country roads have an ice bed underneath the covering of snow which does not melt with the friction of automobile tires. Sunday and Monday were two days of scares and dangers for motorists. Many of them who were caught out on the roads without chains were just out of luck.

Out in North Beaver township on what is known at the Cleeland Mill road which extends from the old Cross Roads school down to Hickory creek, two old landmarks are being destroyed in the very middle of the

Lindy On Way To New York

Refuses To Discuss Reports Of Engagement To Miss Morrow

(BULLETIN)
(Special To The News)

MEMPHIS, Tenn., Nov. 27.—Delayed for nearly two hours by heavy sleet and rain, Col. Charles A. Lindbergh took off from the Mid-South aviation field at 9:42 a. m. on a non-stop flight to New York.

Speculation was rife today when Col. Lindbergh, just prior to hopping off, received a telegram from New York which elated him to the extent that he gave the messenger boy a $5 tip.

Talking with newspapermen this morning, Col. Lindbergh declared a story based on an interview with him last night, denying his engagement to Miss Elizabeth Morrow, daughter of ambassador to Mexico, was "a bunch of silly lies".

"I did not deny the engagement. I never discuss my private affairs," said the flying colonel.

Prince Of Wales May Be Recalled To London, Report

Serious Illness Of King George May Necessitate Early Cancelling Of Trip

(International News Service)

LONDON, Nov. 27.—A persistent report with apparent justification was circulated here late this afternoon that the Prince of Wales had been recalled from his African trip. The secretary of the Press department of Buckingham Palace was asked point blank by International News Service whether the report is true. He replied: "I am authorized to say nothing about it, but you may publish it."

Members of the staff at York House, the Prince of Wales' London home, refused to confirm or deny the report that the heir apparent had been recalled.

"But it will be a relief to us when the Prince reaches Dodoma," one secretary told International News Service. "At Dodoma he will be almost in direct telegraph communication with London. We have had tremendous trouble in reaching him while in the interior; but when he arrives at Dodoma it will ease the situation."

Bond Issue Approved Solicitor White Says

Solicitor R. M. White, municipal adviser to councilmen, stated today that the state had approved the bond issue for $50,000 and that the money will be available this week. The money will be used to pay for the Lutton-Moravia streets storm sewer. It is likely council on Friday will award a bid to Woods & Goider to build the sewer.

Disappearance Mystery

Spurred on by rewards offered, Louisville, Ky., citizens have been searching for Mrs. Ella Rogers, 27, a pretty widow, who has been missing since Oct. 7. On the evening of that day the lights in her apartment went out suddenly; when they were turned on again she had disappeared. Her disappearance has been revealed but recently.

McManus Said To Have Been In "Death Room" In Hotel Where Rothstein Met Fate

By DAVID P. SENTNER
International News Service Staff Correspondent

NEW YORK, Nov. 27.—Right on the police doorstep, George (Hump) McManus, "key man" in the Arnold Rothstein murder myster, today surrendered to Detectives John Cordes and Patrick Flood, who were among the army of sleuths detailed to solve the slaying of the underworld gamester king. McManus is a brother of a New York police lieutenant.

McManus was in a jovial mood when he arrived at the criminal courts building where he was immediately taken, although he refused to answer questions put to him by reporters. He attempted to shield his face when photographic flashlights boombed his arrival. The Broadwayite weighs about 200 pounds and can best be described as "clean cut".

For weeks detectives have scoured the country for the man believed to be able to tell the how and why of the slaying of Broadway's biggest plunger. Police of Cleveland, Chicago, Detroit and St. Louis were active in seeking McManus.

McManus was "pinched" on Broadway. He was taken immediately to the office of District Attorney Joab Banton. The grand jury, sworn to probe the Rothstein murder with its

AWAIT DECISION FROM SOUTH HIGH

By "BUGS" WALTHER

On the strength of a certified baptismal record from a Catholic church at Niagara Falls, N. Y., Anthony "Tony" Ostrosky will in all probability be found in the New Castle high school football lineup against South High, Youngstown, on Thanksgiving day.

For the past several days it looked as if the star left end would occupy the bench when the two neighboring city schoolboy teams trot out on the greensward of Ben Franklin high field for the "Turkey Day" classic.

The situation is fast clearing up. The record obtained by Eddie Connery and Tony Ostrosky will be presented to the decisions committee at their next meeting. It is expected that Ostrosky will be back in the good graces of the league in a short while.

Flier Attempting Perilous Journey In Nonstop Effort

Lieutenant Flo, American Flier Leaves Walkerville, Canada, Bound For Havana

(International News Service)

WALKERVILLE, Ont., Nov. 27.—Lieut. Leonard S. Flo, a former United States army pilot, was winging his way today on a non-stop flight to Columbia field, Havana. He expects to make the flight of approximately 1,800 miles in 18 or 20 hours, arriving in Cuba about 8 o'clock tonight. He left Walker airport last night at 11:07. Flo planned to fly over Dayton and Cincinnati, O., Atlanta, Ga., Tampa and Key West, Fla.

Flo is flying a stock model Spartan airplane powered with a Walter 9-cylinder, radical type, air-cooled motor of 120-35 horse power.

Flo plans to drop flares along his route and Western Union telegraphers in the places where he plans to drop flares have been asked to keep his home station posted of his progress.

EXPRESS DESIRE FOR FRIENDSHIP OF U. S.

Storm Which Threatened To Delay Journey Of Hoover Suddenly Ceases

By LAWRENCE SULLIVAN
International News Service Staff Correspondent

ABOARD U. S. S. MARYLAND, (VIA ARLINGTON RADIO STATION), Nov. 27.—The U. S. S. Maryland was proceeding southward today towards Corinto, Nicaragua, the third port of call of President-Elect Herbert Hoover's Latin-American 'Friendship' tour.

The battleship weighed anchor shortly after midnight when a gale which at first threatened to interfere with today's schedule suddenly spent its force.

When Mr. Hoover reaches Corinto today, he will be greeted by Brigadier General Frank R. McCoy, and Brigadier General Logan Feland, and other leading figures in the recent election troubles in Nicaragua.

At Corinto, the Maryland will pick up its complement of 78 United States Marines. Among these is Koestner, the heavyweight champion of the corps, whom the Marines regard as the logical successor to Gene Tunney.

Causes Widespread Damage.

The storm also caused widespread damage in Costa Rica, severing railroad connections between Puntarenas, the port at which the Maryland was to have landed Mr. Hoover, and San Jose, the capital. As a result Mr. Hoover's scheduled visit to San Jose was cancelled.

Mr. Hoover was wildly acclaimed yesterday by Honduras and Salvador, the first two countries he visited on his tour.

At Amapala, Honduras and La Union, he stressed the fact that his mission was one of friendship. Representatives of the presidents of both nations delivered orations of welcome.

In replying to these Mr. Hoover said that only sound basis for international communion between countries lay in mutual respect and prosperous economic relations.

Presidential Salutes.

Presidential salutes greeted the Hoover party both here and at Amapala. Throngs of several thousand lined the streets of both cities and cheered the American visitors. At Amapala, Mr. Hoover was presented

Drops Dead As He Leaves Work

Robert Adams, 61, Of Smithfield Street, Dies Suddenly Monday Evening

Robert Adams, aged 61, of 110 Smithfield street, dropped dead Monday evening about 5:30 o'clock, as he was leaving the sintering plant of the Carnegie Steel company, where he was employed. Mr. Adams, who was a blacksmith, had apparently been in good health, at least none of the members of his family had heard him complain.

He had done his usual day's work at the sintering plant, and was in the act of leaving work when he fell over. He was carried to the emergency hospital at the Steel mill, but was dead when a physician arrived. Coroner J. P. Caldwell gave a certificate of death from heart trouble.

Mr. Adams was born in the North of Ireland. He came to this country about 40 years ago. Previous to coming here he had lived in Pittsburgh and Butler. He came to New Castle in 1912.

Deceased is survived by his wife and the following children: Thomas Adams of Erie, Robert Jr., William J., Charles M. and Joseph F. of New Castle; Mrs. Evan Wilkins of North street, this city, Catherine R., and Emma R. Adams, who are at home.

Four brothers, Thomas and Matthew of Toronto, Canada, and Joseph and James of Ireland, survive, also two grand-children, Lillian Adams and Shirley Jean Wilkins, of this city.

Mr. Adams was a member of the Trinity Episcopal church of this city and had many friends who will be sorry to hear of his sudden death.

Funeral services will be held Thursday, November 29 at 2:30 p. m. from his late residence on Smithfield street. Burial in Greenwood cemetery.

Begin Relief Work In Six Stricken Provinces In Central Philippines

Take Steps To Forestall Possibility Of Food Shortage In District

(International News Service)

MANILA, Nov. 27.—Between 50 and 100 persons were killed and property damage will run into the millions as the result of a typhoon which swept through the central Philippines, it was estimated today as relief work began in the six stricken provinces of Samar, Sorsogon, Masbate, Albay, Mindoro and Romblon.

The worst damage was inflicted in the province of Albay. Observers stated that the cocoanut crop was completely destroyed and that the hemp crop was damaged to the extent of 80 per cent.

Three small villages in the province, Malitbong, Mayon and Sugoftiwi, were buried in sand and the provincial capital, Legaspi, was under six feet of water for more than a day.

Reports of the destruction in the province of Albay were sent here by a party from the U. S. S. Milwaukee, which is attempting to motor through the stricken area.

Kresge Marriage Is Made Public

Sebastian Kresge, Multi-Millionaire, Revealed Wedded To Mrs. Clara Swaine

ONLY RECENTLY WAS FREED BY DIVORCE

(International News Service)

STROUDSBURG, Pa., Nov. 27.—Sebastian S. Kresge, multi-millionaire chain store king, was married to Mrs. Clara Swaine on October 27 last at Kunkletown, Monroe county, it was announced here today.

Announcement of the wedding came as a surprise to close friends of the couple here. Mrs. Swaine is a daughter of Mr. and Mrs. Frank H. Zitts of Mountain Home, Monroe county. Kresge's home is at Highland Park, near Detroit. The marriage license was secured here and the ceremony was performed by Rev. Benjamin Damhs.

The newly married couple are now in Florida and will spend the rest of their honeymoon in California, according to the bride's mother.

Loses Divorce Case.

Kresge's marital affairs have been before the public for the past several years. He was married first to Mrs. Anna Harvey Kresge, who bore him five children. He was then divorced and a year afterwards married Mrs. Doris Mercer Kresge, the divorced wife of a publisher of a New York society paper.

Mrs. Kresge filed suit for divorce last year in Detroit and charged Kresge with keeping liquor in his home and named a New York chorus girl in the case.

Kresge answered the charges with a denial and declared he was "glad to be rid of Doris Mercer Kresge, the wife who cost me several million dollars." He declared she fixed the price of motherhood at $10,000,000. He also charged her with refusing to bear a child unless he paid her that sum.

Coolidge Move On World Court Puzzles Capital

What Prompted Latest Move By President Coolidge Is Not Known

LEADERSHIP OF AMERICA NEEDED

Administration Leaders Convinced Reservations May Hold Up Issue

By KENNETH CLARK
International News Service Staff Correspondent

WASHINGTON, Nov. 27.—President Coolidge's belated and unexpected move to renew negotiations with the powers looking toward American entrance into the world court frankly puzzled Washington today.

Administration senators, even those most ardently supporting the court proposal, do not see how American adhesion can be secured unless either the Senate or the powers are willing to backtrack on reservation number 5, attached as one of the conditions of acceptance of the court protocol. This reservation provides that the court may not render advisory opinions, without consent of the United States, on any dispute in which America has no claims to have an interest. In the opinion of the powers, America thus would be given an absolute veto over advisory opinions, a privilege not accorded other adherents.

To Prevent Disputes

Its sponsors designed the reservation chiefly to prevent European interference in any disputes arising under America's interpretation of the Monroe doctrine.

The Senate approved the court protocol with five reservations, in January, 1926. The following September the powers invited the United States

Expect Congress To Extend Life To Radio Commission

Federal Radio Commission Expires March 15; Many Protests Are Heard

(International News Service)

WASHINGTON, Nov. 27.—Congress is unlikely to understake a general revision of the radio act in the coming session, in the opinion of Rep Wallace H. White (R) of Maine, co-author of the law and chairman of the house merchant marine committee.

Radio legislation, he said today, probably would be limited to the question of extending the life of the federal radio commission. Its authority expires March 15.

Admitting that widespread protests have arisen out of the commission's re-allocation of wave lengths in compliance with the radio law, White said that time in the short session will prevent a general revision.

Among the proposed amendments to the law suggested is one permitting wireless and cable services to combine. This proposal is said to have been advanced by the Radio Corporation of America and the Western Union as a method of check-mating the proposed merger of British wireless and cable interests for world-wide service.

Thirty To Thirty-Five Ships Are Believed Lost In Ocean Gale

PROPERTY DAMAGE IS TWENTY MILLION

Several Thousand Persons Are Homeless In Storm Zones

(International News Service)

The world-wide gales which struck Europe, Africa and the Philippines, devastating land properties and shipping, left a death toll which may exceed 200.

It is estimated that more than 100 persons were killed in Europe. The dead in the six Philippine provinces ravaged by a typhoon are put at from 50 to 100. Numerous small ships are missing and it is feared their crews perished.

Probably 500 persons were injured.

Many Ships Sink

Between 30 and 35 ships of various sizes were reported sunk or abandoned as derelicts.

The property damage is roughly put at $20,000,000, but it may prove more or less when detailed advices are received from storm zones, some of which are still isolated.

Several thousand persons are homeless in the three vast gale areas.

Shipping has been demoralized. The Cunard liner Carinthia, which has just reached Liverpool, reported intercepting 16 S. O. S. calls.

No New Clues In Murder Case

County Detective Says No New Developments In Murder Mystery

In spite of many wild rumors as to the location of suspects, clues and leads, the county authorities have nothing in the way of tangible clues today in the Alley case.

The discharge from custody of the father and two brothers of the girl, Emma Alley who was murdered November 16 leaves the authorities with nothing upon which to work and until some more definite clue is presented the chances of solving the crime are small.

"We believe that the family know nothing of the crime" said County Detective Fleming today, "and we questioned all of them as thoroughly as we knew how."

Guest In Auto Files Suit To Recover Damage

Mrs. Fred Campbell Asks $21,526.80 From Dan V. Cunningham

ACCIDENT HAPPENED ON BUTLER ROAD

Alleging that she was injured in an auto accident while riding as a passenger in the car of Dan V. Cunningham, Mrs. Gertrude E. Campbell and her husband, Fred Campbell have filed a suit against Cunningham at the prothonotary's office here asking damages in the sum of $21,526.80.

Mr. and Mrs. Campbell are residents of Flint, Mich., while Cunningham resides in this city. On July 23, 1928, Mrs. Campbell alleges that she was in Pittsburgh and that Cunningham invited her to ride to New Castle with him. Others in the car were Mrs. Dan Cunningham, Fred Flynn and Mrs. F. P. Flynn.

When they were on a hill in Penn township, Butler county on the New Castle-Butler road there was a car ahead of them and another aproaching in the opposite direction. It is alleged that Mr. Cunnigham in attempting to pass the car ahead, went into the ditch and upset his car. Mrs. Campbell was in a back seat on the right hand side. Her hand and arm were cut by flying glass and she had her plevic bone fractured as well as other injuries.

She was brought to the New Castle hospital where she remained for 25 days, later being taken to the home of a friend for treatment. She alleges that hospital and medical bills amounted to $526.80. Her husband, Fred, who was employed at a body works in Flint and earning $95 every two weeks was compelled to lose considerable time for which he asks $1,000 and $5,000 for loss of services of his wife. Mrs. Campbell asks $15,000 in addition.

Mrs. Campbell claims that the accident was due to the negligence of Cunningham in operating the car at a high and dangerous rate of speed.

to attend a conference to discuss the interpretation spoke for itself. Quite pointedly the powers, notably France and Great Britain, interposed objections to the American position and there the question has rested until President Coolidge revealed his intentions at a breakfast conference with senators on Saturday.

Few believe any new negotiations can bear fruit before Mr. Coolidge leaves the White House in March. Thus, President-elect Hoover would be charged with carrying on the exchanges and concluding American adherence when he comes into office.

Friendly Gesture

What motivated the president's latest effort, in view of the virtual certainty time will not permit him to conclude the negotiotions, caused considerable speculation today. The most general theory was that Mr. Coolidge designed it as a friendly gesture to clean up the problem before he steps out. Further, he may have been influenced by the recent election of Charles Evans Hughes as a judge of the court, and the negotiation of the Kellogg anti-war treaty.

Administration leaders believe American membership in the court manifesting a desire to sit with the family of nations in settling disputes through arbitration and judicial means, will greatly strengthen the effectiveness of the Kellogg pact renouncing war. The president regards the treaty as a great forward step toward world peace and is anxious to do everything to put force behind it.

There is no acute shortage of food in the stricken areas, relief parties reported, although it is expected that adequate steps must be taken to forestall such a possibility.

Shipping is still disrupted by the typhoon. The freighter Edgemont is three days overdue here and no word has been received of the ship. The transport Meigs has been delayed by the storm and is expected to arrive here today.

Many Vessels Sink

A check disclosed today that only eight of the 38 passengers aboard the motorship Picket, which capsized off Leyte, had been saved. The captain and most of the crew were rescued.

At least a dozen small boats were sunk along the Philippine coasts during the storm.

The Japanese steamer Saka Maru is still aground, but advices received from the U. S. S. Memphis said that the ship can probably be floated when the cargo is lightened.

The path of the typhoon was exceptionally wide. Although six provinces bore the brunt of the storm, its fury was felt in 10 other provinces.

The next meeting will take place at the Fort Pitt hotel, Pittsburgh, on December 8, and this stands.

Mr. Horner in talking with Principal Orth consented to send to George Chatterton, principal of South High, Youngstown, a signed statement from the decisions committee stating that the action taken against Ostrosky Saturday night in Pittsburgh was not final and that the league will sanction by their signed statement the presence of Ostrosky in the lineup of the New Castle team on Thanksgiving.

Little Doubt Now.

According to Mr. Horner there is very little doubt but that the committee will accept the baptismal record of Ostrosky and restore the popular athlete to good standing. However, this is not definite and is only the belief of the committee chairman.

Whether or not the Youngstown school will accept the statement of the western Pennsylvania men is another question entirely, and one that can not be answered at present.

The New Castle officials are impatiently waiting until South High school officials concur in the plan to let Ostrosky play his final game on Thursday afternoon.

Forced To Review Evidence.

If the decisions committee accepts the baptismal certificate of Ostrosky it will mean that "Tony" will be eligible to participate in basketball this winter.

The committee intimated last Saturday night that they would be forced to consider any new evidence that New Castle could secure, prior to final ratification by the league as a body, and certainly the local officials now have concrete evidence with which to cement their case.

Make Repairs Of Explosion Damage

Pennsylvania Engineering Works Negotiates With Railroad For Settlement

Temporary repairs of the damage which was done to the Pennsylvania Engineering works late last week have been practically completed, and workmen are now installing window sashes covered with a heavy cloth to take the place of those which were blown out.

Other workmen are cleaning up the debris, and the fence, surrounding part of the company's railroad yards, is also being repaired.

At the office of the Engineering Works, it was stated that negotiations were being made with the Pennsylvania Railroad company for repairs to the plant. It was on the Pennsylvania tracks that a locomotive hit the gas tank, thereby causing the explosion. This is the reason given why only temporary repairs are being made at the present time.

No statement as to the amount of glass needed to repair the windows is available now.

must be ups and downs, but progress has been made."

Indicates Improvement

The pall of gloom which had settled over England because of the apparent seriousness of the condition of King George was lifted somewhat when the royal physicians, Sir Stanley Hewett and Lord Dawson, issued a bulletin at 11 o'clock this morning which indicated some improvement.

"The king had a more restful night. His temperature is somewhat lower. His condition is otherwise unchanged," the bulletin read.

An anxious throng which had crowded about the gates of Buckingham Palace for hours was visibly elated by the cheering news in the bulletin.

The lowering of His Majesty's temperature was received as a particularly good sign.

Toronto May Get Labor Convention

(International News Service)

NEW ORLEANS, La., Nov. 27.—Toronto, Canada, probably will be selected for next year's convention of the American Federation of Labor, it was indicated today.

While an effort today to designate Toronto was sidetracked, officials said this action was taken only because they did not want the delegates to leave the present convention until all business had been completed.

Opinion Of Judge Hildebrand Upheld By Supreme Court

Verdict Rendered By Jury In Beloit Iron Works Case Against J. P. Lockhart Sustained

In an opinion handed down by the Supreme court, sitting at Philadelphia yesterday, Judge R. L. Hildebrand was affirmed in the case of the Beloit Iron Works company against J. P. Lockhart, receiver for the New Castle Paper Products company.

This was a case in which the paper company had purchased a machine from the Beloit company, on a conditional contract. After the paper products company went into the hands of a receiver, the Iron Works company filed a writ in replevin for the machine, and gave the customary bond. Judge Hildebrand held that the Iron works company could not take the machine from the receiver, because he was in the same position as a creditor. Judge Hildebrand directed a verdict for the replacement value of the machine. The jury fixed the amount at $10,500.

An appeal was taken by the Iron Works company, but the supreme court holds that Judge Hildebrand's order stands.

Oak Street School Parent-Teachers Discuss 1929 Plans

Launch Project To Secure Books For Library; Nominate Committees

The Parent-Teacher's association of the Oak street school held its monthly meeting in the school library room Friday, November 23, at 3 p. m. Many matters of interest were brought before the meeting by the presidint, Mrs. Oscar Alexander.

The girls' chorus of the Oak street school, directed by Miss Grace Eakin, sang the state song, "Pennsylvania", and the official song of the state organization, "P. T. A."

As the school is in need of more books for the library, the parents and teachers adopted a plan to earn some money to purchase them. Every member is required to donate a quarter, but to use it as an investment and earn as much money as possible with it before February 1. It is hoped that at that time each one will have earned at least a dollar for the library.

There were over 60 present at the meeting and all signified their willingness to become members of the state Parent-Teacher's association.

After the meeting the officers and executive committee met to nominate the standing committees for the year. They are as follows:

Program—Miss I. V. Dart, Mrs. J. H. Anderson, Miss Grace Eakin, Mrs. H. P. Meehan, L. E. Sweet.

Hospitality—Mrs. Marion McClintock, Mrs. James Bradford, James R. Francis, Harry L. Allen, Miss Lillian Sedgwick, Miss Clare Smyth.

Membership—Mrs. C. A. Nicholson, Mrs. Harry Lackey, Mrs. S. W. Carnes, Miss Martha Smyth, L. E. Cramer.

Publicity—Mrs. Frank Johnson, Miss Dorothy Fisher, Mrs. W. E. McKee, F. W. Wood.

SEEING THE INAUGURATION

BUSINESS and civic organizations in the national capital have unanimously approved the suggestion that the next presidential inauguration be made the occasion for a great gathering of Americans at Washington to celebrate the event and to see the government in action.

The inauguration of a president affords an opportunity for strengthening the ties that bind an American to his country. It is not an idle ceremony when a citizen is clothed with power that dwarfs the majesty of the Caesars. The whole world will be affected by the opinions and acts of the next president. Americans are delighted to honor their new chief executive, whether they voted for him or against him.

It is not for the benefit of Herbert Hoover that the inauguration next March should be planned on a national scale, to be attended by hundreds of thousands of citizens. He will be deeply impressed and encouraged, of course, by the presence of so many fellow citizens, but the chief benefit will be theirs, in drinking fresh drafts of patriotism from the historic fountain established by Washington. They will visit the white house, the capitol, the lowly house in which Lincoln died, the huge government buildings, Washington's monument, the Lincoln Memorial and many other places.

To many it will mean their long-deferred pilgrimage to the seat of the national government. The good influence that thus would be instilled in American hearts would serve the nation well when future emergencies call for united action of the people.

MONEY LOST

MANY things were proved and much was disproved by the recent election, which in its revelations was notable among presidential elections. From the campaign and election the public has been assisted to a number of important decisions.

One thing the election proved conclusively is that while money is necessary in a political campaign it is not the decisive factor. It cannot overcome popular confidence in a party and its candidates.

It has been noted in the past that presidential elections have been won by the party with the largest campaign fund, and it has been concluded by many that it was the money that brought about the victory. Among the adherents to this school of thought were the Democratic managers.

Had this popular superstition held good there would have been a Democratic victory instead of a Republican landslide on November 6. This year the Democrats, with a fund of $5,300,000, had more money to spend than their opponents. Raskob and his associates were so confident of victory—and of the power of money—that they borrowed $2,000,000, of which $1,600,000 is still unpaid.

While it must have been disappointing to the Democratic leaders, the knowledge that the nation cannot be overwhelmed by a flood of campaign dollars is comforting to the electorate.

BUSIEST

IN THE early days of the American republic its form of government was an experiment without precedent; the scheme existed on paper, but all its details had to be worked out, and even the paper scheme had to be modified and amended.

From the ratification of the constitution until recent times financial troubles were never light. Every president and every congress had to deal with this problem which seemed never to be nearer solution.

Scarcely was the war of 1812 concluded when an entirely new set of problems came up with the migration into the Mississippi. Several chief executives had to handle the Indian situation. Jackson had his bothers with nullification and the United States Bank.

Then came Texas, the Mexican war, and the problems of slavery and disunion, all leading up to secession and the Civil war. Next came reconstruction; and the country was scarcely back on its feet before the currency and tariff became questions of deep seriousness.

The war with Spain burdened the nation with its first imperialistic problems and duties, and long before the World war brought new governmental and financial problems the nation had become so big, territorially and in population, and the president had become so powerful, not only at home but internationally, that there was no position in the world comparable to his in the importance and complexity of its duties.

Never has the job of the president of these United States been a sinecure, and that of President-elect Hoover will prove no exception. His four years will be filled with grave questions demanding immediate and intelligent decision. On March 4, next, Herbert Hoover will occupy the chair of the busiest man in the world.

100 Billions Insurance.

Rat-Bite Fever.

By ARTHUR G. BRISBANE
(Copyright, 1928, by N. Y. American, Inc.)

Do your Christmas shopping early, for your own sake. Stock speculation has given ready money to many that may not have so much next year. This will be a tremendous season in the stores, and if you wait you will find the choice small. Start now, and be liberal.

What you give can never be taken from you, never be lost. It is safe forever, "That I gave away, I have. That I kept, I lost."

Many woke up Monday morning wondering what the stock market would do in the next few days. The simplest mind knows as much as the wisest.

Nobody should overlook increased wealth, individual and national. A country that earns twenty billions a year more than it needs to live, can keep a boom going. But there are limits to pyramiding.

Life insurance measures prosperity. Fifteen years ago this country carried twenty billion dollars' worth of life insurance.

Now life insurance total is close to ONE MUNDRED BILLION DOLLARS.

Standard Oil of California is added to the list of billion dollar corporations. Its stock is worth more than a billion. The same is true of its little brothers, Standard Oil of Indiana and Standard Oil of New Jersey. Only a few years ago the government attacked and "dissolved" Standard Oil because it had reached the first billion.

Various pieces into which it was cut are worth now more than a billion cash, and that does not begin to indicate their real value.

State governments force railroads to abolish grade crossings, and railroads protest: "You are forcing us to build up our competitors, the motor bus lines that use public highways."

There's truth in that and it is real competition. Regular motor-bus mileage is now 270,000 and exceeds the regular route mileage of railroads, according to a survey by Dominick and Dominick.

What can railroads do? They can build express roads for automobiles, buses, trucks, etc., above their tracks, through crowded suburbs, with no grade crossings, and charge tolls. The Pennsylvania, New York Central and Long Island railroads could collect millions a year in tolls.

And railroad men could go the motor buses one better by establishing flying lines. General Atterbury, of the Pennsylvania, made a start. C. E. Mitchell, head of the National City Bank, and associates have bought a flying company, with big factories, controlling a number of commercial routes.

There is no reason why railroads should let themselves be eaten slowly by motor buses, as the dinosaurs were eaten by rats.

A new disease is called "ratbite fever." Widespread, and one of many carried by rats, the disease comes from the bite of a rat, or of a dog or other animal that his come in contact with rats.

If men could stop killing each other for a few years, devoting their killing energies to rats, mosquitos and other dangerous pests, this would be a better world.

An end to rats, alone, would produce savings great enough to offset the billions lost in the last war.

NOVEMBER

November is a dread month,
A taciturn and queer month.
She's neither cold as winter
Nor flowery as the spring.
She wins no man's attention
By gifts worth mortal mention,
She has no jest to tell us
And no cheery song to sing.

November is a glum month,
A most peculiar dumb month.
Her face is strangely solemn
And her garments very plain.
She reminds me of the woman
Who shuns every pleasure human,
And so is very difficult
To please or entertain.

November is a cold month,
A neither young no old month,
None smiles to see her coming
And none sighs to see her go.
Though her virtues may be many
And of sins she hasn't any,
She's the solitary sister
That we never really know.

No city of France suffered so much from destructiveness of the Great War than did Rheims. The Cathedral which took centuries to complete and upon which thousands of workmen lavished a wealth of craftmanship, was almost ruined. The town was well nigh completely destroyed. Of 15,000 houses damaged or destroyed, 11,000 have been restored and 3,000 more built, while the population is 108,000, as against 115,000 on the eve of the war, the work of restoring Rheims Cathedral was completed last year, thanks to the assistance of John D. Electrification Of Railroads Inspires Public Imagination

Action Of Pennsylvania And Reading In The East Arouses Hope That Other Roads Will Follow The Example

Electrification of railroads, especially of the great trunk line terminals, has become a subject of major popular interest since the recent decision of the Pennsylvania railroad to electrify its lines from New York to Delaware and announcement of similar plans in the East by the Reading railroad.

Applauding the Pennsylvania's preparations to spend $100,000,000 for work covering 325 miles between New York and Wilmington, Del., the Rochester Times-Union records as reasons for action, "greater economy of electric traction compared with steam, increasing density of traffic and need for more rapid movements of passengers and freight, growth of the southern passenger business, desirability of utilization of electric power in connection with terminals at Philadelphia and Newark, desirability of having locomotive power that will meet the future needs of the territory and probability that work can be done cheaper now than in the future. Freight efficiency will be doubled by the plan, says the Times Union, which believes that "some of these reasons apply to other railroads which will now be impelled to look over their electrification plans again," and that "this will apply particularly to those roads that compete with the Pennsylvania."

Further significance is found by the Chicago Daily News in the fact that "the Reading railroad has decided to electrify its service within the Philadelphia metropolitan district," and that paper holds that the Reading and the Pennsylvania have "dipped into the future and realized the economies and improvements of service obtainable through electrification." On the Chicago situation The Daily News comments: "Many Chicagoans who know how great is the benefit resulting from the Illinois Central's electrification of its great terminal are asking themselves why other railroads that enter Chicago continue to deny themselves and the public similar advantages. What is the matter with the railroad and business executives of the great and growing capital of the Middle West? Electrification along with its other advantages is one of the most effective permanent remedies for the smoke evil, and it is sure to be applied in time to the various railroad terminals in this city. The movement toward electrification cannot begin too soon."

"The railways have solid facts before them. They cannot depend on an augmented income as a result of their investment of millions," in the judgment of the Philadelphia Record, which sets forth the Reading's expected results; "The lines first to be improved are those used by thousands of citizens every day in getting to and from their homes. Better service will result, and the parts of the city through which the trains are to run will be relieved of the present discomfort of noise and smoke. The change will bring large areas, now comparatively sparsely settled, much closer to the center of the city. The announcement states that the new trains will mean a daily increase in service of approximately 25 per cent. and a saving of time over present schedules of more than 20 per cent. Such changes will inevitably extend the limits of the metropolitan residential area."

In a discussion of the $100,000,000 cost for one road between New York and Delaware, the San Francisco Chronicle states: "The outlay is warranted, in the judgment of the management, because careful surveys indicate enormous traffic growth in the area served. It is estimated that the New York metropolitan area will within 15 years after the completion of the electrification contain a population of 30,000,000. On the same ratio of increase the Philadelphia area will contain 10,000,000. The New York-Philadelphia area has the business and the immediate prospects to warrant the outlay and the scrapping of railroad equipment that cost millions of dollars."

The prediction that other roads must "follow sooner or later" is made by the Lexington Leader, which calls the larger project "the most important ever undertaken in electrification by any American road," and finds evidence that "the Pennsylvania officials have every faith in the future of rail transportation." The Leader continues: "Neither air lines nor truck lines nor water transport can, in their judgment, take the place or retard the growth of the rail system. Moreover, it indicates the determination of the Pennsylvania to keep abreast of the times, to provide means of transportation that are strictly modern, that will appeal to the public, and that will place the road in a strategic position so far as competition is concerned. Electrification will make travel swifter and smoother. It will no doubt lower costs ultimately. It will increase the prestige of the road and invite passenger travel. It will improve the terminals physically, making them cleaner and more healthful."

Comparison with Europe is made by the Canton Daily News, which records the interest on this side of the Atlantic in what is being done abroad. "In lump figures," declares that paper, "the United States probably leads in the electric railway movement among the nations of the world. But relatively, European countries are apace with if not ahead of us in the electrification of railroads. In Switzerland, for instance, 1,250 miles of standard railroad routes operate electric trains. Italy and Germany each have about 750 miles electrified, with France, Holland, Poland and others making good progress in the change from steam-driven to electric-powered locomotives. It is significant of the extent of the European development that an American sub-committee is crossing the Atlantic to study electrification of steam railroads abroad. America usually has pointed the way to Europe in transportation advancement, but this time it appears that we are to learn the lesson."

Obstacles in the way of achieving the desired change in the western metropolis are mentioned by the Chicago Tribune, which quotes executives of the Pennsylvania and New York Central as giving the impression that "nothing can be expected" now at the Chicago terminals, and that paper continues:

"Both of these executives deny that electrification of the New York terminals is favoritism to the East. 'Conditions,' they agree, are different in New York from what they are in Chicago. The distinction seems vague to us. Smoke, soot and cinders, we should judge from the universality of the human constitution, are just as threatening to the health of a citizen of Chicago as to a resident of New York City. The buildings, clothes and homes of Chicago are just as susceptible to the collection of grime as the buildings, clothes and homes of New York. Chicago ears are no less sensitive to the noise of a steam locomotive than are the composite ears of New York City."

WHERE FROM?

There are those who believe we have all lived upon the earth before and that we go merely to come again. They believe in what they call reincarnation. We come back to higher form as a finer type of personality, if we win that right by our behavior now. It would seem that there might be some foundation for this faith. How does man come by his finest impulses? Why does he visualize them? Somebody has said: "We come from a world where we have known incredible standards of excellence. And we dimly remember beauties which we have not seized again. And we go each to that world."

THE PATH OF FREEDOM.

In a verse of that splendid hymn one reads:

"O beautiful for pilgrim's feet,
Whose stern impassioned stress,
A thorcughfare for freedom beat,
Across the wilderness."

And indeed our forefathers had a certain passion for freedom of worship and expression. They fled to the unknown wilderness of America to find it. They made indeed a path of freedom. But they had weaknesses which we have inherited. What they sometimes called freedom was rather an insistence on having their own way against the wishes and righs of others. Early churchmen made a great deal of freedom sung its praises journeyed far to find it but they weren't above persecuting Quakers and others.

A path of freedom through the wilderness is not a path of freedom if it is only OUR path.

DISCIPLINE.

Discipline is exercise for the soul. Whatever church we may or may not belong to it will be an excellent thing for us to deny ourselves something very definite and pleasant during that season of the year called Lent. If we suffer a little it's the discipline that makes us strong. No use giving up anything if there's no sacrifice in it, no discipline.

DRUDGERY.

Many young men of the present crop can not understand why they can not step from school or from the nursery for that matter, right into a good job paying a large salary. They hope and confidently expect to skip all the processes of drudgery. Strange that their education, so-called hasn't taught them better than that. Good crops do not spring full grown out of the ground. Even flowers as beautiful as a college boy or girl do not grow to the full height of beauty between sunset and dawn. It was Margaret Fuller a wise woman who wrote:

"Drudgery is as necessary to call out the treasures of the mind as harrowing and planting those of the earth."

Even very young people ought to be able to understand that there are processes of training that are necessary to achievement—even to the safe holding of a fair job.

Chicago Gunmen In Philadelphia; City Is Aroused

Believe Three Chicago "Killers" Aimed To Intimidate Probe Witnesses

ATTORNEY MONAGHAN IS NOT FRIGHTENED

(International News Service)

PHILADELPHIA, Nov. 27.—The presence of three known Chicago "killers" in the city aroused renewed interest today in District Attorney John Monaghan's grand jury probe of gambling conditions.

The appearance of the gunmen here from where most other criminals have been so anxious to get away aroused much speculation. The prosecutor in revealing the men were known to be hiding in the Fourth Ward said he feared they were imported to intimidate witnesses. Other opinions were expressed the "killers" were brought here to do away with the prosecutor himself.

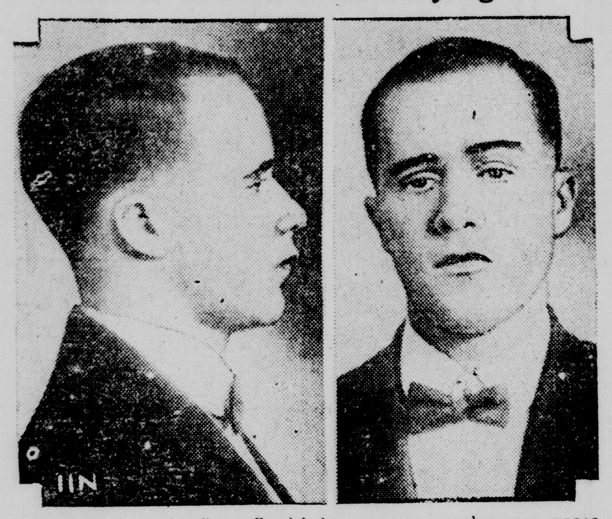

Monaghan, however, refused to become alarmed over this theory. "It may be with certain people uneasy over the situation, that there are some witnesses whose testimony is considered dangerous," he explained.

Capone Involved.

The presence of the Chicago gangsters also is believed to be connected with the revelations during the first month of the grand jury probe that "Scarface" Al Capone, notorious Chicago gangster, had been a frequent visitor to Philadelphia. He was entertained numerous times by Max "Boo Boo" Hoff, reputed "King of Philadelphia bootleggers."

With the probe of gambling still underway revelations of a powerful white slave syndicate here, were made today. The police also were involved in this crime ring, the prosecutor's office revealed. Much evidence in the gambling and white slave traffic is to be brought out at the probe today.

Two Injured In Auto Crash

Jesse G. Moore And Henry Stadler In Accident Near Youngstown

Jesse G. Moore, 34½ West Washington street, and Henry Stadler, Lawrence Hotel, this city, were injured late Sunday afternoon, the former quite seriously, when Mr. Moore's car skidded as they were entering Youngstown, and struck the curb with great force. Messrs. Moore and Stadler were injured, when the car struck the curb.

Both were rushed to St. Elizabeth's hospital, where it was found that Mr. Moore had suffered a severe abrasion at the back of the head and was unconscious. His condition is considered quite serious. Mr. Stadler was badly shaken up but sustained no serious injuries or broken bones.

According to relatives of Mr. Moore, who visited him in St. Elizabeth's hospital on Monday, he was still in a semi-conscious condition then, and his condition was still serious, although he was apparently getting along as well as could be expected.

Mr. Moore is a well known employe of G. W. Moody & Son of this city. Mr. Stadler is still in Youngstown, where he has been staying with relatives since the accident.

Game Fishing Ends; Deer Season Begins

HARRISBURG, Nov. 27.—Whether by accident or design the sportsman who likes to fish as well as hunt deer will not find himself torn between two loves this week.

The season for bass, salmon, pickerel and muscallogne closes on Friday. The season for anterless deer opens the next day.

Despite the low water that had prevailed recently in the majority of the streams reports to the board of fish commissioners indicate many good catches. Some of the best made recently were in the north branch of the Susquehanna.

Licensed fishermen may try their luck for sunfish, catfish, yellow perch and eels during the remainder of the year.

New Castle Man Gets Second Prize When Fiddlers Meet

Charles Brickner Wins Second Prize In National Competition Contest

Charles F. Brickner of 448 East Washington street is the proud possesor of second honors and a prize totaling $75 in gold following a vote which was taken from the radio audience throughout the entire United States after some 10 old time fiddlers from 19 states had played at a national competition in Washington, D. C.

The contest took place October 19, the winners were to be selected by the radio audience who heard the program. Mr. Brickner was number 6 on the program and according to the telegram and letter vote was given second place. Mrs. Brickner, wife of the fiddler accompanied him at this contest on the piano.

Mr. Brickner took first laurels several years ago in a county contest which was held at Butler and has won several prizes in various county and other contests in the past years. The radio competition at Washington was his first attempt, however to get national honors.

Hoff Denies That McManus Asked Aid In Financial Way

(International News Service)

PHILADELPHIA, Nov. 27.—Max "Boo Boo" Hoff, styled by District Attorney John Monaghan as "king of Philadelphia's bootleggers", today denied that he had been asked by George McManus, "key man" in the Rothstein murder mystery, to aid in raising $400,000 bail for the release of four other men held in New York in connection with the crime.

"That's just another lie," Hoff snapped when asked about the report that McManus had been here to enlist "Boo Boo's" aid. "I haven't seen McManus for three years," he said.

girl babies; more boys than girls die in infancy.

According to scientists of the American Institute gathered in New York, that is the fault of the ductless glands, giving little boys a bad start, even before their birth.

The pituitary gland in the head is especially important.

Prisons might be empty, if we knew now what we shall know some day, about these ductless glands, and the powerful products that they pour into the stream of life.

Some of these glands, necessary to the proper development of the female baby, are useless, or positively harmful, to the infant boy. No use in complaining. Nature is partial to girls, wisely, for they create the race.

Professor Coleman, of the University of Toronto, says another ice age is coming in 100,000 years, and an ice age, left to itself, might be a serious matter. Montreal, where the professor made his announcement, was once covered by a field of ice 5,000 feet thick. No real estate boom could survive that.

But the ice will not have its own way, when it comes sliding and freezing over this earth. When you consider what men have accomplished in the 12,000 years that separate us from the stone age, when flints, bows and arrows were the only tools, you can easily believe that in 100,000 years men will control this earth.

The Macedonians say "the Bulgarians are taking from us all the liberty that we won by hard fighting from the Turks," and the powers are worried by bloody Balkan feuds of the old kind.

The world will watch the result. Michailoff, leader of the insurgent Macedonians, seems to be a man hard to frighten. To the Bulgarian government's theats, Michailoff replies: "Any official who signs a decree against me signs his own death warrant."

McMANUS NOW IN CLUTCHES OF LAW; ROTHSTEIN PAL

(Continued From Page One)

promise of far-flung reverberations was considering evidence as the much-wanted gambler was taken into the criminal courts building under a guard of a dozen policemen with trigger-fingers taut.

McManus was one of the men said to be in the "death suite" of the Park Central hotel where Rothstein was lured to his assassination on the night of November 4. His picture was identified by Mrs. Ruth Keyes, pretty Chicago mannekin, through a flirtation struck up a few hours before the shooting.

McManus had vanished from his usual haunts. None of the gamblers knew, or would admit they knew where he was hiding. Wild stories were circulated along Broadway.

Suspect Not Worried.

McManus was hiding near Montreal with his wife. McManus had gone to Chicago to hide. McManus had left the country. But nobody could lay a finger on him, for he had no police record, and it was only after three weeks of intensive searching that police located an old group picture, in which McManus appeared.

Then came stories that McManus had made overtures for surrender. They were promptly denied.

It is up to McManus now to tell whether he was in room 349 and left his coat in a hurried exit after the shooting, or whether the overcoat was a "plant".

His predicament did not appear to worry him.

He was taken to the floor where the grand jury is in session, then across the "bridge of hope" to the district attorney's office.

Charged With Murder

NEW YORK, Nov. 27.—George ("Hump") McManus, white light figure and former gambling colleague of Arnold Rothstein, was formally charged today with the murder of Rothstein, the "gambling king," who was shot and mortally wounded in room 349 in the Park Central hotel on November 4.

Shortly after surrendering to District Attorney Banton, of New York county, McManus was arraigned before general sessions court Judge Francis S. Mancuso on a short affidavit which formally accused him of the crime.

Accompanied by his lawyer, James D. C. Murray, the prisoner appeared in general sessions court where he pleaded not guilty.

McManus was held without bail for arraignment for further hearing on Friday morning.

McManus was not handcuffed when taken into court. He appeared so much at ease, that the proceedings seemed to bore him. He smiled and yawned and occasionally chatted with his lawyer.

The prisoner was immaculately dressed. He is a large, fleshy man standing six feet and weighing about 200 pounds.

McManus was identified by Mrs. Ruth Keyes, the Chicago model, as one of the men she had seen in the room at the Park Central hotel just before Rothstein was shot.

Rothstein died on November 6 in the polyclinic hospital.

For three weeks the police and district attorney's office had been conducting a nation wide search for the slayer of the "gambling king," spurred on by scathing criticism daily in the press.

Sudden Death Of Mrs. Adda Kreigh At West Pittsburg

Dies This Morning While She Was Helping Little Girl Get Ready For School

Mrs. Adda Kreigh, aged 57, died suddenly this morning at the home of Howard Hutton in West Pittsburg, where she was employed as a housekeeper. Mr. Hutton had gone to work and Mrs. Kreigh was getting his little daughter ready for school. She had gone into a clothes press and was about to return to the little girl when she suddenly threw up her hands and fell over on the bed. The little girl summoned help and it was found that Mrs. Kreigh was dead. Coroner J. P. Caldwell was notified and gave a certificate of death from heart trouble.

Mrs. Kreigh lived in Greenville. She had been a housekeeper at the Hutton home for some time. She is survived by two sisters and a son. Undertaker A. H. Osborne of Greenville came here today and took the body to his funeral parlors in Greenville. The body will later be moved to the home of a sister on Mercer street, Greenville, from which place the funeral will be held.

Altoona Warehouse Visited By Thieves

(International News Service)

ALTOONA, Pa., Nov. 27.—Blowing open the safe in the office of the Loose Wiles Biscuit Co. warehouse some time during the night, burglars removed $75 in cash and valuable papers, escaping without leaving a clue. The robbery was discovered early today. The office was damaged in the explosion, and checks taken from the safe were found along a nearby railroad siding.

As for stowaways, there is the young couple in the rumble seat.—The Toledo Blade.

Senate Committee To Start Investigation Of Unemployment Issue

Senator Couzens Says Labor And Education Committee Will Investigate

Methods Of Relieving Unemployed Condition Will Be Worked Out

By WILLIAM S. NEAL
International News Service Staff Correspondent

WASHINGTON, Nov. 27.—Every phase of unemployment will be investigated during the coming session of congress by the senate committee on education and labor, Sen. James Couzens (R) of Michigan announced Monday.

The committee will consider means of determining the number of unemployed, methods of relieving the condition and the situation which may be brought about in the future through a virtual revolution of industrial methods.

To Take Census.

One of the first efforts of the committee will be devoted to methods of taking an unemployment census, with a view of ending disputes which marked the recent presidential campaign, when the number of unemployed was placed at from 1,000,000 to 7,000,000 by campaign orators.

The so-called Hoover three billion dollar building reserve plan and the five-day week proposals of the American Federation of Labor also are expected to be considered.

"We plan to take up the LaFollette resolution authorizing an inquiry into unemployment soon after the session opens," Sen. Couzens said.

Considers All Angles.

"We shall try to reach every angle of the question, to consider means of obtaining authentic figures on unemployment, find the causes and seek remedies."

"With the speeding up of industry there is increased porductivity everywhere and the surplus labor created by the speeding up process must be absorbed. Recently much of it has been absorbed in new industries, such as radio."

The so-called Hoover plan presented to the New Orleans conference of governors was characterized as feasible by Couzens "although not in the manner in which the public understands it."

Would Create Reserves.

"The creation of reserves for public works in time of labor stress would be heldful, but the success of the plan cannot depend alone on the federal government," he said. "Local and state authorities must cooperate and coordinate their efforts to this end."

Couzens pointed out that in the Harding unemployment conference of 1921 the speeding up of public works was recommended. He was mayor of Detroit at the time he was named a delegate to the conference. The city of Detroit, he said, had already instituted some projects and augmented them after the conference with the result that Detroit got through the year without soup kitchens.

A survey of unemployment made during the past summer by the National Institute of Economics will be presented to the committee.

"It wasn't easy at first," she'll admit. "I found that a sedentary job indoors all day was almost too much for me. I realized that if I was going to make good on the job—and I loved it!—I'd have to keep myself in the very pink of condition.

"I've done it with Nujol—nothing else. It's kept me from having headaches and colds and that awful let-down feeling. Kept my nerves from getting jangled and fatigued, too.

"My doctor tells me that Nujol isn't a medicine. It's simply a pure *natural* substance. It keeps your system functioning as nature meant it to, even under abnormal conditions. It not only prevents an excess of body poisons (we all have them) from forming, but aids in their removal."

Twenty Four Killed In State Quarries During 12 Months

(Special To The News)

WASHINGTON, D. C., Nov. 27.—Quarry accidents in Pennsylvania last year claimed the lives of twenty-four workers and resulted in the injury of 2,065 men, according to a report just made public by the United States department of commerce.

More than twice as many deaths from quarry mishaps occurred in the Keystone state as in any other state of the union during the year, and the state boasted 18 per cent. of the entire number of such deaths reported the country over, the report reveals. The number of workers injured in Pennsylvania in quarry accidents totaled fifteen per cent. of all such injuries occuring in the forty-eight states.

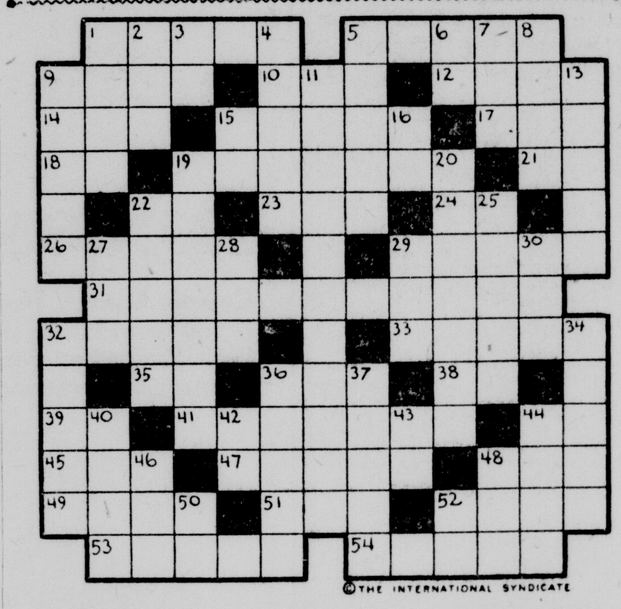

During 1927, a total of 262 active quarry operators were reported for the Keystone state. These operators employed 15,926 men, or almost one-fifth of the entire number of workers employed in quarries in the union, according to the commerce department report.

ASKS STATE SENATOR INTRODUCE MEASURE REGARDING FIREARMS

(International News Service)

CHICAGO Nov. 27.—Following an inquiry here in which it developed that there is no law to prohibit the sale of sub-calibre machine guns to anyone who desires to purchase them Judge John P. McGoorty in the criminal court Monday requested State Senator Arthur Buebsch to introduce a resolution in the state legislature prohibiting the sale of the weapons to anyone except police, military and naval organizations.

PETER'S ADVENTURES in ANIMAL LAND

BY MRS. FLORENCE SMITH VINCENT

THE PASSENGERS ARRIVE AT THE GREAT WOODS

When Peter saw how the hungry hawk had been tricked, he whooped for joy.

"Hurrah for the feathered fleet! It has fooled the hungry hawk so far. Now I can no longer see, but I hope the rear columns play the trick as cleverly as did the front ones!"

Dove sighed.

"I hope so, too," said he, "but there is no telling. All the pigeons in those columns far in the rear are in great danger. Any bird is likely to provide a meal for Hawk. And the sad part of it is that should he carry off a dove in those cruel talons of his the rest of us would never miss our comrade—indeed, we who are in the front ranks would never know that he had been captured, there are so many of us. I expect something to happen to me some time, but I do hope when it does it will be at a time when my family are not too busy at least to know it!"

Peter laughed.

"That is one way of looking at it, of course, although for my part I don't see why you care whether you are missed or not when you will not be around to know it. I had much rather folks would"—

Dove, however, did not wait for Peter to finish, but right at this point gave a delighted coo.

"At last! At last! The Great Woods are in sight! See, boy, the tops of the tallest trees are peeping over yonder hill. We are flying faster now—do you notice it? Great Grandfather has given us the order to hurry; he knows that there is nothing we love better than to be the first to arrive at the end of our journey. Such fun as it is to watch the others come in!"

Not far ahead rose a mountain, and as they neared it Peter could

AT LAST THE PASSENGERS HAD REACHED THEIR JOURNEY'S END

see the tops of the trees that grew in the valley beyond.

Some of the trees must have grown tired of living in the hollow and set their roots in the soil half way up the mountain side, for they were peeping over its crest and watching what was going on upon the other side of the world.

And it was these treetops that Dove had caught sight of. Peter had never dreamed that such a long distance could be traveled in such a short time—not even by an airplane—but in just a few moments after the trees were sighted, the pigeons had flown over the mountains and arrived at the Great Woods.

At last the passengers had reached their journey's end.

Former Resident Of Butler County Was Teacher To Hoover

BUTLER, Pa., Nov. 27.—Herbert Hoover, president-elect of the United States, received a part of his early school training through a former Butler countian, Mollie (Brown) Carran, Hoover's old-time school teacher in the little West Branch, Iowa school.

Mollie (Brown) Carran was born in Middlesex township, Butler county, a daughter of the late William and Harriet (Morrison) Brown. The family removed to West Branch when Mollie was a very small girl, and her father was, for many years, president of the West Branch bank.

Ancestors of this early teacher of a future president are buried in the Middlesex Presbyterian church yard, Middlesex township, and quite a number of her relatives reside in this section. Among them are Mrs. Grant Morrow and Mrs. Minnie Lee of Valencia and Mrs. Harriet Patton of Hooker, who are her cousins.

AIMEE DENIES THAT KEYES WAS BRIBED TO DROP HER CASE

(International News Service)

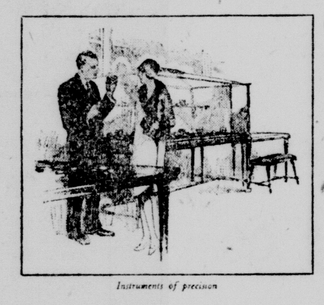

NEW YORK, Nov. 27.—"Do I look silly?" Don't let any one tell you I'd be that stupid to pay $800,000 to Asa Keyes to keep him quiet. What a fine fool I'd be to buy anybody's silence."

Thus Aimee Semple McPherson, titian-haired goddess of the Angelus temple, speeding to Los Angeles, Monday branded charges under grand jury investigation that Keyes former district attorney of Los Angeles, was bribed to drop prosecution of her famous "kidnaping" case.

Mrs. McPherson arrived on the Liner Columbus and stayed in New York just long enough to snub the city and call it more wicked than naughty Paris. She is enroute to her home today for Thanksgiving.

GROGAN watches and clocks are "instruments of precision." There are many fine models exemplifying the talents of both watchmaker and jeweler, some of which are adorned with precious stones, but in every instant the case is regarded with favor only when it houses an accurate and worthy mechanism. A visit to this department will be found most interesting.

The Grogan Company, with its space practically doubled, now occupies the entire ground floor with shops and offices on the second floor of the Grogan Building at Wood Street and Sixth Avenue. This gives to Pittsburgh one of the world's outstanding jewelry establishments, both in beauty of appointments and broad range of precious merchandise.

How Many Men in Lawrence County Will Gamble $1.50 to Have their Suits Cleaned by Mayberry's?

We find there are a lot of men who think there is no difference between the way Mayberry's clean and press a suit and the way in which the work is done by any cleaner.

On the other hand we know there are a lot of men who have been induced to try Mayberry's service once—and today would not think of going back to the old-style "cleaning and pressing parlor."

We want to win you, too, as a steady customer—to demonstrate that a cleaning and pressing job done by Mayberry's is superior in every way.

Here Is Our Offer:

Instead of wrapping your suit in a parcel and carring it under your arm to a store—try the business-like way. Use your telephone! Let our driver call at your house—he is in your neighborhood every morning and afternoon. Let us demonstrate what a real cleaning job is—let us show you what a difference it makes when each part of your suit—collar, shoulders, left breast, right breast, back, vest, trouser tops and trouser legs—is pressed on a machine designed expressly for that one purpose and operated by a presser who specializes on that one job. We will return your suit on a hanger and enclosed in a dust-proof paper bag. We sometimes take three or four days to do the job in our way (you can have it sooner if you request it, without any extra charge). But—

if, on receiving your suit, you do not think it the best cleaning and pressing job you have ever had done—if you do not think it worth fully $1.50—simply tell us and we will refund your money without question.

Our cars are on your own street every morning and afternoon.

Discover New Food For Sufferers Of Diabetes

By ROBERT S. THORNBURGH
International News Service Staff Correspondent

WASHINGTON, Nov. 27.—Discovery of a new food believed to be useful in the treatment of diabetes was announced today by the United States bureau of standards, through the American Chemical society.

Xylose or wood sugar, obtained by chemists from peanut shells and cottonseed bran, both waste products, may prove a new food for diabetes sufferers, according to Dr. Warren E. Emley, of the bureau of Standards.

"The modern theory is that a diabetic patient should be fed insulin and not much else," Emley said. "Because xylose has a sweet taste and no food value, it may be useful in the dietary of diabetics."

Emley disclosed that the bureau is investigating also the possibility of substituting xylose for glucose for such industrial uses as the spinning of rayon and weighting of leather. All these uses, he explained, depend primarily upon price and as yet there has been developed no methods of production of this wood sugar commercially.

Wide experimentation in mixed acids is being conducted by Dr. Emley. He described "xylotrihydroxyglutaric" acid, a "relative" of the new sugar, as making "very good lemonade."

This acid with certain modifications also may be used in tanning, a reducing agent in the chroming of wool and in dyeing operations.

The bureau's investigation showed that only in a few places are peanut shells accumulated in commercial quantities, but are as a rule simply burned for fuel, valued for that purpose at $2 a ton. The quantity of hulls runs about a million tons a year.

The standards bureau expert indicated that if peanut hulls may be transformed in commercial quantities into valuable products at least one important move will have been taken by science to meet a cross-section of the agricultural problem.

No Men Added To No. 1 Fire Company

Harper, Rohrer, Zeitler And McFarland Man New Pirsch Service Truck

At the present time no new men have been added to the force of the central fire department on South Jefferson street because of the extra Pirsch service truck, states George Harper, member of the company.

Mr. Harper and Clyde Rohrer man the truck on one turn, while Byron Zeitler and Perry McFarland are on the new apparatus on the other turn.

The other apparati are manned as follows: American-La France aerial truck, Wilmer Hawk and James Stockman on the first turn, Ralph Craig and Harry Colley on the second turn; Knox truck, Alex Hartman and Norman McFarland on the first turn, and D. W. Byers and William Scott on the second turn.

At the present time Norman McFarland is on duty at the central fire station to take the place of one of the members who is on sick leave.

Charge Youth Who Married Young New Castle Girl Not Divorced From Wife

John Edward Glazier, age 27, of Youngstown, O., alias John E. Glazzy, alias Jack E. Galen, seems to have had a wife for each name. His unhappy penchant for forgetting one wife and taking on another has landed him in the Mercer county jail where he is being held on a charge of bigamy, and probably will answer later to a charge of violation of the Mann Act.

While the charges in the Mercer county court is presented by Caroline Thompson Rogers, the real prosecutor is W. J. Shoaff of Raymond street, this city, father of Mariellen Shoaf who was ensnared by the wily Clazer into a marriage which is now in process of being undone.

Glazer is said to be from Detroit, Mich. Sometime ago he came to New Castle and met Miss Shoaff. He passed himself off as a single man, was well dressed and of a rather prepossessing appearance. After a brief courtship the two were married in Mercer by Rev. John Black, pastor of the Methodist church.

Shortly after the wedding Mr. Shoaff learned of Glazer's previous matrimonial escapades and found that his first wife had been divorced but that he was still married to the second one. The legal proceedings were instituted and Glazier will be tried in the Mercer county courts.

At his hearing Glazier stated he married the New Castle girl only after he was given to understand his second wife had secured a divorce.

Mission Dinner Event Saturday

Annual Thanksgiving Dinner To Be Served At That Time

Thanksgiving will be a season not just a day for the youngsters of the Sunday school and sewing classes of the City Rescue Mission. Superintendent Ben Watkins announced today that on Saturday, December 1 the Mission would hold its annual Thanksgiving dinner for the kiddies at 5 o'clock and that means big eats for them.

To serve the youngsters will require a corps of volunteer workers and most of these workers have already signed up for servie. More can be used however and also considerable more food can be used if there are those who wish to confribute.

The dinner will not be a turkey dinner for youngsters don't mind much if its turkey or not. But there will be a flock of weiners, scalloped potatoes, rolls, cake, ice ceram and a lot of other junket that will appeal to the appetite of youngsters.

Persons who are interested in aiding this most worthy enterprise are asked to get in touch with Superintendent Watkins.

Centimeter-Inch Difference Shown

Twenty Cubic Inches Of Snow Make One Cubic Inch Of Water

Between cubic inches and cubic centimeters there is quite a difference, and when it is reported that 20 cubic inches of snow will make but one cubic centimeter of water as it was in The News of Monday, the error is more than obvious.

B. F. Johnson, weather observer at the City of New Castle Water company's pump station, in reporting the snowfall of Sunday to The News, stated that it takes 20 volumes of snow to make one volume of water. The reporter made the mistake which is illustrated in the preceding paragraph. So, 20 cubic inches of snow do not resolve into one cubic centimeter of water, but into one cubic inch of water.

Roadside Planting Will Be Helped By Federal Government

Government Can Pay Half The Cost Of Planting Trees Along Roads

(Special To The News)

WASHINGTON, D. C., Nov. 27.—Considerable impetus is expected to be given to the movement toward improvement of Pennsylvania federal-aid highways by the act of congress of last session which permits the federal government to pay half the cost of wayside planting of trees and shrubs along federal-aid roadways, according to the report just issued by the United States agriculture department.

The Massachusetts department of public works and the highway and forestry departments of other states have already demonstrated how much can be done at small cost to beautify the roadsides by judicious planting of native trees, shrubs and plants, according to the department.

The Pennsylvania department is empowered, the agriculture department states, by law to make roadside improvements, the work including such planting, replacements and care as may be necessary.

Dr. Havner is a well known authority on animal husbandry throughout the entire country. He is known by many farmers in Lawrence county.

Reserve Officers Meet December 13

Major Walter Moore Will Be Speaker At Meeting Of Shenango Chapter

Major Walter Moore, Infantry, (DOL), acting assistant chief of staff of the 99th division at Pittsburgh, will be the main speaker when the Shenango Valley chapter of Reserve Officers Association of Pennsylvania meets Thursday evening, December 13, in the dining room of the Elks home, announces Captain Melvin L. Craig, in charge of the reserve officers' work in the New Castle district.

All reserve officers of Lawrence, Butler, Beaver and Mercer counties are encouraged and invited to attend the meeting. They should notify Adjutant Lieutenant P. J. Dempsey, American Red Cross, New Castle, if they will be present at the meeting so that necessary arrangements can be made. A dinner will precede the meeting.

Major C. B. Shaffer of the engineering reserves and vice president of the Reserve officers association of Pennsylvania, will be the honor guest at the meeting.

Seiberling May Head Big Merger

Rumors Big Rubber Companies May Be Merged Soon

CLEVELAND, O., Nov. 27.—A rubber company doing around $450,000,000 of business a year was forecast in the financial district yesterday as a result of reported heavy purchases by Cleveland and Akron interests in common stock of the Goodyear Tire & Rubber Co., already the largest rubber concern in the country.

Names of companies purported to be involved in such a consolidation are Goodyear, United States and Seiberling Rubber Co., along with several offshoots of these concerns. Assets of such a combination would approximate $600,000,000.

Goodyear stock soared to a new high of 105½ yesterday, up 10⅜ points, which followed a rise of nearly 11 points last week. The stock sold as low as 45 this year. Shares of U. S. Rubber were considerably firmer while Seiberling, selling ex dividend, held its recent gain.

Belief prevailed that Cyrus S. Eaton and F. A. Seiberling interests combined have sufficient common stock to control the company.

This not only opens the way for Frank A. Seiberling, founder and former president of Goodyear, to regain his position at the helm of the Goodyear company if he wants it, say financial gossip, but it means the strengthening of another northern Ohio industrial concern.

Many Tubercular Cattle Are Killed

Over 30,000 Are Killed By Government Agents In State In One Year

(Special To The News)

WASHINGTON, D. C., Nov. 27.—A total of 30,653 cattle were slaughtered in Pennsylvania by agents of the United States department of agriculture during the fiscal year ending last June 30 in the work of tuberculosis eradication, according to the report of the chief of the bureau of animal industry of the department. This number represents more than one-seventh of the total number of cattle slaughtered in eradication work in the entire country for the year.

Indemnity of $1,179,269.63 was paid to the owners of the cattle by the state government and damage of $785,021.90 was paid to the owners by the federal government.

The average appraisal per head of the Pennsylvania cattle slaughtered was $133.68 and the indemnity per head paid by the state and federal governments combined amounted to $64.08.

Salvage per head realized from the cattle of the state slaughtered in this tuberculosis eradication work averaged $34.92, according to the agriculture department report.

LADIES AID MEETING

The Ladies Aid society of the Methodist church met at the home of Mrs. James Mason Tuesday evening, November 20. The meeting was a memorial of Mrs. Dorothy Hutton. The meeting was opened by the president, Mrs. William Savage, who read 14th chapter of St. John, after which the members repeated the Lord's prayer.

Resolutions read by the secretary, Mrs. C. C. Cochran:

"It is with great sorrow that we record the death of our faithful member of the M. E. Aid society, Mrs. Hutton, who died November 1, 1928. Her mission on earth was filled. Her work was ended," the resolution read.

"We cherish in kind remembrance her humble walk among us, her sweet patience and her reverence for the house of God. In her last sickness she regretted that she could not attend the public services and that she could not meet with the ladies of the society. Amid our sorrow there is joy. She made a public confession of her faith in Christ, such was her example of obedience to her Savior's command.

"To the remaining members of our society the divine command is given, 'Be ye also already for you know not the day nor the hour when the Son of Man cometh.'

"Therefore, be it resolved that

"First—In humble acknowledgment of God's ever ruling power we endeavor the lesson that such deaths do teach. 'I waited patiently for the Lord; and He inclined unto me and heard my cry.'

"Second—In this dispensation of God's providence we are called to exercise with more diligence our energies for the promotion of the Master's cause, and may we heed the warning given, that our eternal memorial may be proclaimed by Christ, 'Well done thou good and faithful servant, enter thou into the joy of the Lord'," after which Mrs. Savage sang a solo, "Sometime We'll Understand."

After the meeting a delicious lunch was served by the hostess, Mrs. James Mason, assisted by her daughter, Miss Ermina Mason.

Those present were Mrs. V. M. Brown, Mrs. H. Drake, Mrs. Fred Anderson, Mrs. C. C. Cochran, Mrs. Fred Emery, Mrs. Arthur Hainsworth, Mrs. William Savage and Mrs. James Mason.

Auto Death Rate Increases Slowly In Pennsylvania

Keystone State Ranks Second In Number Of Fatalities; New York Leads

(Special To The News)

WASHINGTON, D. C., Nov. 27.—Automobile accidents in Pennsylvania last year caused the death of 1,860 persons a death rate of 19.1 persons for every 100,000 population of the state the department of commerce announces.

The Keystone state ranked second in the 43 states in the number of deaths from automobile mishaps, New York coming first with 2,334 such fatalities.

Automobile fatalities in Pennsylvania during the past five years have shown a steady increase climbing from 1,592 in 1923 to 1,860 last year. Such deaths in 1924 numbered 1,535 and in 1926 totaled 1,734.

Philadelphia reported the greatest number of deaths from automobile accidents in Pensylvania, 324 such fatalities occurring in that city. Pittsburgh came second with 215.

NEW CASTLE LADY RESTORED TO NEW HEALTH AND VIGOR

Miseries Of Kidney Trouble And Sluggish Liver Ended By New Konjola Medicine.

MRS. ANNA SPANISH

Seavy Photo

Health is the greatest asset we can possess. Without it life is uninteresting and we never seem to attain the utmost happiness we all strive so hard to acquire. Many of us go on from year to year with that half-sick feeling that comes from a rundown and disordered inner-system; complaining of aches and pains and remarking about the tired, drowsy feeling that comes over us so often. Since the introduction of the new Konjola medicine, many thousands of people throughout the Central States and Middle West have voluntarily offered strong words of praise for Konjola and hundreds of men and women have given their signed statements to the Love and Megown drug store, 204 East Washington street, this city, telling of the wonderful benefits they derived from this celebrated compound.

One of the many to describe the new health received from Konjola is Mrs. Anna Spanish, Moore street, South New Castle Borough.

"I had been a sufferer for many years", said Mrs. Spanish, "first trying one thing and then another, before I ever knew there was a medicine like Konjola. But now since I have taken this compound it has ended all my troubles and restored new health to me.

"My whole system was badly rundown and most of my miseries were caused by a sluggish liver and disordered kidneys. These ailments gave me untold trouble and no matter what I took for relief, I continued to suffer. I think that these troubles were brought on by poisons and impurities in my blood. It never seemed to circulate in the proper manner and a peculiar numbness in my limbs was caused by this condition. Because of bladder trouble I had to rise several times every night and when I got up the next morning the first thing that I noticed would be a terrific pain in the small of my back that was almost unbearable. Finally I got so nervous most of the time and recently the least noise would upset me. There were pimples and skin eruptions on my face and body and in spite of everything that I did to correct this, they always came back.

"A friend of mine had been taking Konjola and has received amazing results from it. He advised me to give it a trial and so I started on the treatment. Before the first bottle was gone I began to feel better and I knew that this was the medicine for my case. My kidneys got stronger and now, I don't have to get up a single time during the night. Every ache and pain ended. Then Konjola regulated my liver and cleansed the poisons from my blood. Since Konjola did this the embarrassing skin eruptions have been cleared from my face and body. I have only taken four bottles of this medicine and yet, my health has improved one hundred percent. I am never nervous and my sleep is sound and refreshing.

"Konjola certainly is a wonderful medicine and I want to say once more that I am only too glad to indorse it to others".

Konjola is sold at the Love and Megown Drug Store, 204 East Washington street, New Castle, and by all the best druggists in this vicinity.

Building Here Shows Increase

State Report Gives New Castle As One Of Cities Showing Gain

STATISTICS GIVEN FOR PAST MONTH

(International News Service)

HARRISBURG, Nov. 27.—Building activity during October decreased $2,385,129 in the 39 Pennsylvania cities and towns which report to the bureau of statistics of the Department of Labor and Industry according to detailed figures made public today. The total reported was $13,979,083.

zTwenty of the 39 cities and boroughs reported decreases in construction for October totaling more than five million dollars which is partly offset by an increase in the other 19 cities and towns totalling more than $2,500,000.

Of the 20 cities showing decreases, Philadelphia shows the largest decline with a decrease of $3,311,965 or 28.7 per cent; Pittsburgh the next largest with $1,605,493 or 45.5 per cent. These cities are followed by Lancaster with $269,630, or 57.3 per cent; Pottsville with $204,250, or 77.6 per cent, and Altoona with $142,126 or 56.1 per cent. The other 14 cities show decreases in amounts from $5,370 for Oil City to $80,591 for Hazleton.

Of the 19 cities reporting increases in construction, Erie shows the largest gain with $960,100 or 232.9 per cent; Wilkes-Barre the next largest with $335,278 or 81.5 per cent; York third with $321,395 or 3195.7 per cent and New Castle fourth with $255,956 or 226.9 per cent.

The other cities and their respective increases included Allentown 24.9 per cent; Bethlehem 75.4 per cent; Bradford 183.5 per cent; Harrisburg 51.3 per cent; Monessen 4,723.5 per cent; Sunbury 71.7 per cent; Tyrone 44.3 per cent; Warren 44.7 per cent and Williamsport 72.7 per cent.

Comparable building construction data is available for 34 Pennsylvania cities and boroughs for the first ten months of the present year. The total volume of construction in these 34 places for the first ten months of 1928 is $184,803,901 compared with $189,374,647 for the first ten months of 1927, a decrease for 1928 of $4,570,746 or 2.4 per cent.

The decrease in construction for these 34 places at the end of nine months in this year was only 1.1 per cent.

Twelve cities and boroughs in the state show increases in construction for the first ten months of the present year. The largest increase was reported for Pittsburgh with a gain of $3,783,655 or 11.8 per cent; with Harrisburg second at $2,262,165 or 72 per cent; Bethlehem third with $1,411,566 or 64.3 per cent; Williamsport fourth with $483,244 or 34.9 per cent and Bradford fifth with $465,716 or 89.7 per cent.

BUFFALO, Nov. 27.—Airplanes Monday were searching the Consolidated Airways line for a plane believed to have gone down near Lake Ontario after being lost in yesterday's six hour snow storm.

The plane was piloted by Lieut. E. Gaines, New York city and believed to contain a passenger for Dayton, O., from Mitchell field.

Mail Contracts To Be Awarded

Announcement was made here yesterday that the post office department in Washington, D. C. is asking for bids for the carrying of mail between New Castle and New Wilmington for a period of four years commencing July 1, 1929. Bids for this service must be in the postal department at Washington by 4:30 p. m. on January 8, 1929.

The department, it is said, is also asking for bids for a screen wagon service between the main office building in this city and the different railroad depots here for a period of four years, commencing July 1, 1929.

At the present time the P. & O. Electric company is carrying on the New Castle-New Wilmington service while Fisher and Stubbs are operating the local screen wagon service.

Picture Study Club Listing All Pictures At Franklin School

Committees Selected For First Move In "Know Your Own School" Drive

Members of the Picture Study Club of the Ben Franklin Junior High School held their regular meeting at the building recently. At this time plans were completed for an evening party to be held Wednesday, November 28, at the home of their sponsor, Miss Eva Coulter.

Committees were appointed for the listing of all pictures on the walls of the Ben Franklin school. This was the initial movement in a "Know Your Own School" campaign. Reports will be given by committee chairmen at the next meeting.

Club notebooks are well under way. The offer of a prize for the best notebook at the end of the semester is an added inducement for careful and neat work.

Miss Coulter supervises this club.

School Association Will Meet December 3

Teacher Association Will Elect Delegates For State Convention

Members of the Pennsylvania School association of the New Castle school system will hold their annual meeting which will take place December 3 at 4:15 p. m., in the senior high school.

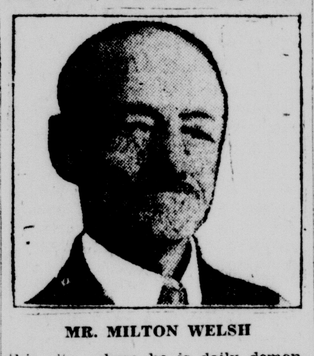

The special committee will present suggestions received relative to the constitution while the nominating committee will also receive suggestions pertaining to the candidates fitted to serve as administrators during the coming year.

At this meeting that delegates will be selected who will attend the P. S. E. A. convention which takes place in Reading, December 27 and 28. This will be the 77th conference of the association in this state.

He Could Hardly Walk Because Of Terrible Pains

New Castle Man's Whole System Was Disordered; Relieved By Famous Ten Herbs.

"Since taking Ten Herbs, I feel ten years younger," was the recent statement of Mr. Milton Welsh, 909 Canyon street, New Castle, to the Ten Herbs Man, who is at Eckerd's of New Castle, Inc., 30 East Washington St.,

MR. MILTON WELSH

this city, where he is daily demonstrating this famous new herbal compound to crowds of men and women.

"About ten months ago my whole system seemed to get out of order," continued Mr. Welsh, who is 65 years of age and a furnace man. "My stomach did not function properly. After eating I would fill with gas and bloat. Food, bitter and as sour as vinegar, would arise in my throat. I became very nervous and suffered with headaches. I was dizzy and spots were before my eyes. My skin was sallow, I did not get proper rest, having to arise several times at night. The pains in my back were so terrible that I could hardly walk.

"I read about Ten Herbs in the newspapers and learned what wonderful help your medicine had been to others. I got a bottle and was benefited right from the start. I continued using Ten Herbs for awhile, and it has been a great help to me. My stomach is in such fine condition that my food digests properly. Gas and that nauseated feeling have been entirely relieved. My nerves are strong. My liver is in good condition, with the result that dizziness and spots before my eyes have entirely passed away. Those terrible pains in my back have been relieved, and I get a good night's rest. I can recommend Ten Herbs to all who suffer with stomach trouble, or a run-down condition."

So many men and women of this city and throughout this section have been helped back to health by Ten Herbs that this medicine's popularity probably has exceeded that of any medicine ever introduced here. Its tremendous success is due to the fact that it does not act on one organ alone, but benefits the stomach, liver, kidneys and bowels and gives the whole system a thorough cleansing.

The Ten Herbs Man is at Eckerd's of New Castle, Inc., 30 East Washington Street, this city, where he is daily meeting the public and explaining the merits of this medicine.

Funeral Services For Newspaperman Occur Tomorrow

(International News Service)

NEW YORK, Nov. 27.—Funeral services for William Bradford Merrill, former general manager of the William Randolph Hearst publications who died of pneumonia yesterday will be held tomorrow afternoon at the Merrill home in Manhasset, Long Island. Burial will be in All Saints churchyard at Great Neck, L. I.

Mr. Merrill passed away at the Habor sanitarium at the age of 67. Illness had forced him to retire from his post as general manager a year and a half ago. Treatments abroad failed to cure his affliction of hardening of the arteries.

He had been a newspaperman for almost 50 years and was engaged in almost all branches of the profession during his career.

BULGARIAN UNREST SLOWLY SUBSIDING

(International News Service)

WASHINGTON, Nov. 27.—Indications that the unrest in Bulgaria is subsiding were received at the state department Monday.

American Charge D'Affairs Trojan Kodding reported to the department that the situation at Sofia and environs is "entirely normal and orderly' and that he had been "reliably informed that the frontier district is also normal.'

Registration For Penn State Courses Will Be Continued

First Classes Will Be Taught Friday Evening At Local Y. M. C. A.

Registration for the six extension courses to be offered to the people of New Castle and Lawrence county by the engineering extension department of the Pennsylvania State college, will continue tonight and Wednesday evening from 7 to 9:30 o'clock in the New Castle Y. M. C. A., according to I. C. Boerlin, representative of the department, who is taking care of the registratich locally.

"While there have been many to take advantage of the unusual opportunity presented by Penn State already, yet I do not feel that the people of the state know what Penn State is doing for men who do not have a chance to come to the college for a formal education," declares Mr. Boerlin.

"To get away from this handicap, Penn State is taking its college and its staff to the man: in his own home center the college will teach him things that otherwise he could not get. Of course, there is a nominal fee, but in consideration with the amount of training that goes with the work, the cost amounts practically to nothing.

"Six courses will be offered at the New Castle center this year. Metallurgy of steel, shop mathematicism, blue print reading and sketching, mechanical drawing, business correspondence and D. C. electricity—all will prove themselves of much value to the men who work in the shops and the mills.

"Penn State is your school, and it is coming to you through its extension training centers. Ten men are required to make up a class, and any other course will be added to the local curriculum if enough men wish to take it. The first classes will start Friday evening, November 30, at the New Castle Y. M. C. A."

Two Ways to Avoid Sour Stomach

PAMPERING the stomach as you grow older is one way to keep out of trouble! But it's far more pleasant to eat what you choose, and let Pape's Diapepsin keep the stomach free from excess acid. Plenty of people past "three-score-and-ten" keep stomachs young because they know this one secret.

Because it is so quick, so safe and so sure in ending digestive troubles, millions rely on "Pape's Diapepsin." "Pape's Diapepsin" is unequalled as an indigestion remedy and dietary corrective, yet it costs only 60 cents a package at all druggists.

If your stomach ever torments you get "Pape's Diapepsin" at once and recapture the pleasure of care-free, painless digestion. You may have felt that nothing can help your particular difficulty, but so have others to whom this remedy proved a pleasant surprise. This experiment with diapepsin may do as much for you.

Severe Jolt Sure In Stock Market

Big Bankers Declare Small Investors Will Be Left Holding Bag

Professionals Will Be Found With Fat Berth When Fall Begins

By W. S. COUSINS
International News Service Financial Editor
(Copyright 1928 International News Service)

NEW YORK, Nov. 27.—Lubrication is essential to smoothly moving machinery; and money is needed for a swiftly advancing stock market. Cut off the oiling apparatus of a highly-geared machine and it would soon grind itself out of existence. Cut off the money supplies from the steam roller stock market and the downward crash would not be long delayed.

Talk to any one of a dozen or more of the biggest and most prominent bankers and investment heads in Wall street today and they will tell you that sooner or later the pyramiding of bank credit in a topsy-turvy stock market will end in a severe jolt for the sky-flying tendencies of the market; that the reaction, when it comes, will be severe and painful; that the professionals who are "running the market" now will have a fat berth behind their bags of profit and that thousands of small investors will be "holding the bag" as they have done in every big bull market in Wall street history.

The bankers are not so much afraid of high stock prices, in the closely-held "jazz babies" that have been plunging skyward so recklessly in the last few weeks. They fear for the credit basis behind the whole market; the process by which many of these stocks are blown up partly with speculators' money—but partly also with money borrowed in New York and Oshkosh, Barriers' Falls and Chicago, and even London and Amsterdam.

Money From Everywhere

The magnet of high money rates had brought money to Wall street from city banks, country banks, European banks, savings deposits, old stockings and other hiding places, and the speculators have used it as part of the purchase price of their swiftly rushing specialty stocks on the big board and other exchanges. When the money gives out, as surely it must some day, what will these speculators do?

This question is answered in part at least by George E. Roberts, the "contact man" of the National City Bank of New York, the writer of all of its very excellent treaties on financial and economic matters, and one of the most brilliant banker-economists of the country.

A year ago, Roberts points out, call money was loaning at four per cent, against the six to eight per cent rate prevailing in the last few months. Commercial paper rates have risen one to 1 1-2 per cent and long-term investment rates have been higher which means that prices of prime bonds have declined. What does it all mean and what is the cause of the sudden jacking up of rates? Did the bankers squeeze up the price of money, or how have they contributed to the result, if at all?

All Cleaned Up

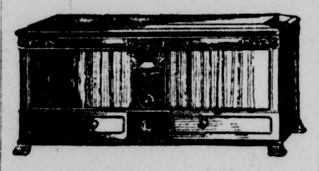

No, they did not. Big traders and little traders in the stock market, bidding for funds with which to pursue the rapidly rising stocks, have cleaned up all the available money in sight. What difference to them if they paid six per cent or eight per cent, or even 10 per cent (per year) interest on the money, when they were making profits of 10 per cent to 50 per cent in a week or even a day. Now there is to be a showdown. The bankers will positively tighten up on their requirements for money borrowed on the stock market and it will be surprising if that does not clip the wings of the skyscraping industrial and specialty stocks which appear to have been "discounting" not a year or two of prosperity, but a decade or more of big earnings for industry. If they do all of their discounting now, what will they have to discount a year or two from today?

Explain City In Letter To Legion

Chamber Of Commerce Tells About New Castle As Convention Center

A letter from the New Castle Chamber of Commerce, setting forth the advantages of New Castle as a convention center, and pointing out the numerous facilities in the city to take care of a large crowd, along with a poster which again shows why New Castle is rightfully called "The Convention City of Western Pennsylvania" has been mailed to all state officers and district commanders of the Pennsylvania department of the American Legion.

"New Castle has always been proud of the part played by the Pennsylvania World war men during the critical times of 1917 and 1918," the letter reads. "Much local pride has been shown by our townspeople for those from New Castle who served with you.

"The Legion Home in New Castle, made possible by the friendliness of the general public for the local veterans of the World war, is only a small appreciation for what they did.

"New Castle's business and professional interests stand ready to give all necessary assistance to the Perry Gaston Post No. 343 in its entertainment of the State American Legion convention in 1929, if the local committee is successful in obtaining the convention.

"Our city has splendid facilities for the entertainment of your convention and we will do everything in our power to make your meeting profitable and pleasant to the ex-service men of Pennsylvania if you grant us the opportunity of being your host for the 1929 convention.

"Very sincerely yours,
"New Castle Chamber of Commerce,
"James W. Cole, secretary."

Saturday the committee will go to Philadelphia, where the invitation will be extended to the legion, states Mr. Cole. At that time, posters will be displayed in the room in which the committee meets, which set forth graphically many of New Castle's features, such as The Cathedral, The Castleton, and Cascade park.

Those to make the trip to Philadelphia, in all probability, will be James W. Cole, secretary of the New Castle Chamber of Commerce, Phil Greer, Harry Long, Guy Wadlinger, and Pat J. Dempsey.

SUPREME COURT REFUSES APPEAL OF DOOMED MAN

(International News Service)

PHILADELPHIA Nov. 27.—Calvin E. James, under death sentence for the slaying of William H. Dunstan, near Doylestown last April, Monday lost his apepal to the supreme court.

Justice Schaffer in an opinion overruled the assignments of error and thus held the Upper Derby man to be the murderer of Dunstan by his own confession. The slaying of Dunstan grew out of a bootleggers debt, it was said.

Informed in the Bucks county jail at Doylestown that he had lost his last chance to escape the electric chair James asserted that he never would go to his death in the chair. Guards have been instructed to watch him carefully for fear he may endeavor to take his own life.

Bring In Gusher In New Gas Field

CLARION, Pa., Nov. 27.—The Alum Rock Gas company drilled in a 1,500-cubic-foot gasser on the Keatley tract of land, about five miles north of Clarion, and the well will open a new gas field in the county. This tract of land has produced many thousands of barrels of oil in the past years, but this is the first gasser to develop. The gas was found in the third sand, which is considered permanent in this section.

VOLANT

There will be union Thanksgiving services at the Presbyterian church on Wednesday evening. Rev. Miller, pastor of the M. E. church will deliver the address.

Mr. and Mrs. S. A. Allen and daughter Mary left early Sunday morning to spend Thanksgiving with Mr. and Mrs. G. C. Allen of Buffalo, N. Y.

Mrs. T. J. Drake, who is confined at the Mercer hospital is much improved.

There will be no prayer meeting services at the Methodist church on Thursday evening.

SENSATIONAL NEW-TYPE GUM NOW READY FOR THIS CITY

Business romance seen in new product which became, in four months, third largest seller in America

Zippy as a brisk Fall day! Real mint—*the finest money can buy—and plenty of it, gives Baby Ruth Gum the peppy flavor you can't chew out. Never before has a flavor met with such popularity!*

By Walter Pierce

THEY said there was no room on the market for another gum.

Otto Schnering, president of the Curtiss Candy Company, and maker of the Baby Ruth Candy Bar (3 million a day) did not agree.

He set out to make a gum as superior in quality as his famous candy. He imported pure chicle from Central America. He used whole milk and pure cane sugar. His own experts select the mint he uses.

His aim was to get into a gum *more* of the cooling, refreshing peppermint flavor than ever before. A flavor that would last three times longer than ordinary gum. A flavor that couldn't be chewed out.

How he succeeded in Baby Ruth Gum is one of the romances of modern business. Even today, thousands of cities, whole states, have not been supplied. The demand has been too great. *Yet, in four short months Baby Ruth Gum has become the third largest seller in America!*

Now Baby Ruth Gum is for sale locally in stores everywhere. The same flavor that has taken other cities by storm. A flavor, dealers declare, that will give *you* a real surprise.

Endlessly these great trucks roll out of the gigantic Curtiss factories with shipments of Baby Ruth Gum. The demand is without parallel in the history of the business

Paul Ash, "the Rajah of Jazz," and Miss Annette Solomon call on Baby Ruth Gum for refreshment between shows

Otto Schnering, president of the Curtiss Gum Company, surrounded by his little friends at Mooseheart, Ill. He gives his personal pledge that every ingredient used in Baby Ruth Gum is the purest and best obtainable

Uncover Valuable New Evidence In Big Liquor Probe

Roscoe La Vey, Ohio Citizen, Pleads Guilty And Implicates Several Others

NEW EVIDENCE IS VERY CONVINCING

(International News Service)

PITTSBURGH, Nov. 27. — A new link of evidence dangled at the end of the government's chain of testimony in the North Side rum ring conspiracy trial today.

Roscoe M. La Vey, arrested in Bradford, Ohio, southwest of Columbus, pleaded guilty before taking the witness stand yesterday and identified several of the 44 defendants on trial in federal court as having purchased whisky, moonshine and alcohol from him at his North Side headquarters.

La Vey in examining a batch of checks identified some as being received from defendant Thomas Johnson and others. The defendant also brought into his testimony the name of David Adams, a defendant who had heretofore not been mentioned in the trial.

Had Delivery Aid

Adams, La Vey charged, was his helper in delivering liquor. Once when the former was arrested for illegal transportation of booze, La Vey related, he enlisted the aid of Thomas Johnson and the two men met with Adams in the office of Alderman Maloney and posted a bail bond for Adams.

La Vey's testimony, government attorney's contend, practically established the connecting link in the conspiracy between the concessionaires and other members of the booze ring within the North Side area.

In the event that the government completes its case against the 46 defendants in the North Side rum ring trial today defense attorneys, it was indicated at the opening of court this morning, will ask of Federal Judge Robert M. Gibson that a verdict of not guilty be returned on the grounds that a conspiracy has not been proved.

While defense attorneys refused to discuss their plans, it is known that they are ready to answer the charges of the government, and numerous witnesses were on hand today to give testimony to establish the innocence of the 46 defendants, political leaders, police and alleged racketeers.

Rifles Are Deadly At Long Distances, Warning To Hunters

HARRISBURG, Nov. 27.—"At a hundred yards your shotgun is almost harmless. Your high-powered rifle may kill a man a mile away."

As hunters of the state prepared to exchange the former for the latter in anticipation of the opening of the deer season on Saturday that was the warning urged upon them by John B. Truman executive secretary of the board of game commissioners Truman always manages to spend part of the season in the big game country of the state.

Those hunters who in former years came back with tales of doe almost running them down and failure to as much as sight a buck this season will have a chance to get even for the strain such experiences puts on the trigger finger.

Doe may be killed in 53 counties by those who have obtained special doe liceinses in addition to the regular hunting license. They also may be killed by land owners who have obtained special permits issued free by game wardens.

A lot of promising football teams have gone Democratic. That is, they score enough points to win but let the other fellow score to many.

Red Cross Roll Call Week Set

Annual County Drive Outside New Castle Starts Saturday

The week of Saturday, December 1 to 8, inclusive, has been set aside as the period for this year's roll call of the Lawrence county chapter of the American Red Cross. County Roll Call Chairman Clarence A. Patterson announced today.

The membership effort this fall will be concentrated on the county districts outside of New Castle, Ellwood City and New Wilmington. The goal is 1,500 new members.

Red Cross attaches in this city have been planning for the coming drive for several weeks, and this announcement of the dates on which it is to be held is but the climax of a long period of careful preparation. According to Mr. Patterson, the entire roll call organization is complete and material is being distributed to the various localities now. When December 8 comes around everything will be in tip-top condition for the opening of the campaign.

A partial list of the sub-chairmen appointed to handle the roll call in their districts in the county appeared in The News last week. This list has been completed and is published as follows: Hickory township, Mrs. F. C. Mosier; Ocaltown, Mrs. Myrtle McBride; Enon boro, Mrs. George Andrews; Princeton, Mrs. Scott Kildoo.

Present plans call for a roll call Sunday in the churches of the county on December 2. Attaches announce that the cause of the Red Cross will likely be presented from the country pulpits on that day, and an appeal for membership made later.

The American Red Cross is offering six different kinds of membership to the residents, one, the ordinary annual membership; another, the contributing membership; third, the sustaining membership; fourth, the supporting membership; fifth the life membership; and last, the patron membership. Prices of these rang from one dollar to $100. Other donations to the Red Cross can always be made.

Slander Case Is Non-Suited; Both Claiming Victory

Rev. J. C. Beahm Says School Director Slandered Him In Eyes Of Public

(International News Service)

GREENSBURG, Pa., Nov. 27.—Opinion was divided here today as to the victor in the slander suit of the Rev. J. C. Beahm, pastor and Sunday school teacher, against John Kalp, school director.

Kalp was charged with circulating stories placing the minister in an unfavorable light regarding his attitude toward fifteen-year-old Margaret Kalp, a pupil of Beahm. The suit was non-suited in common pleas court at the instance of Kalp's counsel who pointed out that the evidence submitted failed to establish malicious slander. On this point Kalp claims victory.

Rev. Beahm's counsel, however, contends that Kalp denied making certain statements attributed to him, thereby clearing their client.

Mushy" notes were passed between Rev. Beahm and Margaret Kalp, the girl's father charged. These notes, he said, he showed to the school board and the church board.

Rev. Beahm is married and has nine children. He teaches school in which two of Kalp's children, Margaret and her brother, are pupils. For seven years Rev. Beahm has been pastor of the Church of the Brethren, near Jones' mills.

Kalp on the witness stand denied he had circulated reports involving direct charges. The court in granting the non-suit, said the action did not constitute slander.

Mr. Hoover now dreams of breaking the Solid South of the Latin country.—The Montgomery Advertiser.

Splendid Recipe To Stop A Cough That "Hangs On"

The best cough remedy that money could buy, can easily be made at home. It saves money and gives you the most reliable, quick-acting medicine you ever used. The way it takes hold of stubborn coughs and chest colds, giving immediate relief, is astonishing.

Any druggist can supply you with 2½ ounces of Pinex. Pour this into a pint bottle, and fill up with plain granulated sugar syrup or strained honey. It's no trouble at all to mix, and when you once use it you will never be without it. Keeps perfectly and tastes good—children really like it.

It is surprising how quickly this home-made remedy loosens the germ-laden phlegm, and soothes and heals the inflamed membranes. At the same time, it is absorbed into the blood, where it acts directly on the bronchial tubes, and helps the system throw off the whole trouble. Even those severe coughs which usually follow the "flu", are promptly ended.

Pinex is a highly concentrated compound of genuine Norway Pine, containing the active agent of creosote, in a refined, palatable form. Nothing known in medicine is more helpful in cases of severe coughs, chest colds and bronchial troubles.

Do not accept a substitute for Pinex. It is guaranteed to give prompt relief or money refunded.

Dr. Wingerd Lions Speaker

Makes Thanksgiving Address At Meeting At Noon Today

In one of the most appreciative and grateful addresses he has ever delivered, the Rev. Charles B. Wingerd, pastor of the Central Presbyterian church of this city brought an inspiring message of thanksgiving to the members of the New Castle Lion's club, assembled for their regular weekly session today.

"The people of America are becoming more and more grateful," he said; "for the things that God has blessed us with. And they are many."

"We should be thankful for, first of all, our health. All the gold and other wealth, could never equal the value of our health. Then, too, we must be thankful that this has been a peaceful year in our country; no pestilence or wars have interfered. We are thankful for our homes, and children. Next, America is a land of opportunity; we know it and therefore should feel thankful for this."

Dr. Wingerd said that Thanksgiving, or "Turkey Day," the subject of his address, is about 300 years old. It has specifically become one of our greatest national holidays under the pens of our different presidents, since the time when Abraham Lincoln first signed a proclamation asking for its observance.

His address was interesting and most appropriate to the Thanksgiving holiday.

Count Bernadotte Receives License, To Wed Saturday

Prior To Luncheon Today With J. Pierpont Morgan, Couple Obtain License

(International News Service)

NEW YORK, Nov. 27.—Just before visiting the house of Morgan in Wall street, where they were to be luncheon guests of J. Pierpont Morgan, Count Folke Bernadotte of Wisborg and his fiancee, Miss Estelle R. Manville, stopped at the Municipal building to obtain a license for their wedding on Saturday.

Count Folke, who is a nephew of the King of Sweden, gave his age as 33, his residence as Stockholm, and his occupation as an army officer. Miss Manville, daughter of Mr. and Mrs. H. Edward Manville of New York, gave her age as 24.

Two Arrested For Selling Moonshine To Pittsburgh Girl

(International News Service)

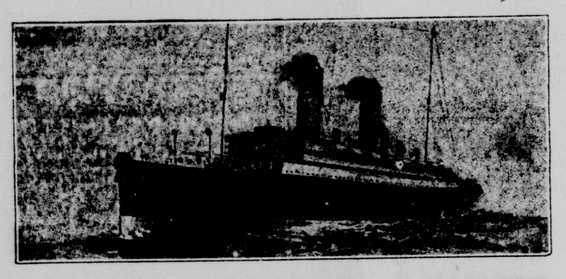

PITTSBURGH, Nov. 27.—Charged with selling moonshine whiskey to a 12-year-old girl, Joseph and Pauline Sampson were held for court trial in morals court today accused of violating the Snyder act.

The alleged purchase was made by Eleanor Lydzinski, 12, for $1 for which she received a pint of moonshine, according to police. Authorities say they confiscated 10 gallons of the liquor in a raid conducted shortly after the purchase.

This, police say, is the first court development concerning the numerous South Side complaints about liquor being sold to children.

Use New Method At New Bridge

Concrete On North Street Bridge Being Proportioned On Scientific Basis

Thomas A. Gilkey, county engineer, who designed and is supervising the building of the North street bridge across the Neshannock creek, advises that the concrete in this structure is being proportioned on a new scientific basis, known as the water-cement ratio method.

"By this method," Mr. Gilkey says, "It is possible to accurately pre-determine the durability and strength of the concrete. Economies in design are in this way made possible.

"To obtain these results accurate information concerning the physical properties of the materials entering into the concrete is necessary. Tests have been made to determine the suitably of the aggregates from the standpoint of cleanliness and soundness.

"To obtain an economical mixture, grading tests on the sand and gravel are made to ascertain the proportions in which they shall be combined, as this measure of proportioning concrete is based on the rigid control of the ratio of water to cement. Constant tests are made on the sand and gravel to find the amount of water which they contain. This contained water is then considered as part of the permitted mixing water and deduction made for it so as to accurately control the water in each batch of concrete."

Mr. Gilkey also states that while this method has been adopted by many prominent engineers throughout the country it is but the first instance of its use in this section, and that this method of proportioning will be used on future bridge construction for the county.

Handicraft Group Active In Work At Franklin High

Members Already At Work On Numerous Projects Of Handiwork

At the first meeting of the handicraft club of the Benjamin Franklin Junior High School, pillows were made which were circular, semi-circular and square with side-boxing in shape. Most of the pillows were quilted. The designs were mostly silhouettes and flower pots. The materials used ranged from muslin to silver cloth.

At the second meeting flower pots were decorated in futuristic design using brilliantly colored art paper with a heavy coat of shellack. Bead flower boutonnieres were made at the third meeting using beads of various colors and sizes with annealed wire.

The club held their fourth meeting last Thursday. White quilt patches were worked in cross stitch using blue marking cotton.

Miss Ethel Rose is sponsor of the club, and the members of the group are Helen Book, Jean Parker, Jemina Shuler, Gay Anderson, Virginia Guy, Lucille Turk, Camilla Smith, Lillian Shellenberger, Alice Simpson and Evelyn McMillan.

Book On Children Is Now At Library

Library Ready To Distribute Books On Care Of Preschool Children

To say that Donald was an unruly child is to put it mildly. During his first days in an Iowa City preschool group, he almost caused a panic. He banged the building blocks around, struck at other children if they had something he wanted, ran away from any teacher who started to make a request of him, and then laughed or shouted at her in defiance.

Donald had an awakening. At home he had few playthings or interests to challenge and steady his efforts, and no companions of his own age. At the preschool he discovered that it was as much fun to use his energies in pounding a nail as in pounding another child or a piano, in fact, pounding a nail had the added advantage of being a step in "making something". He found that climbing the ladders and pulling others in an express wagon were more interesting activities than running away from teachers especially when he realized that they turned their backs on him every time he ran away.

Dr. Bird T. Baldwin, for ten years director of the Iowa Child Welfare Research station where young children are studied and helped by means of the preschool, gave many a child like Donald his first lesson in getting along with a new and apparently contrary world, and many a teacher and parent a conception of the mysterious workings of child's body and mind.

Just before his untimely death, Dr. Baldwin prepared a reading course on The Young Child for parents and teachers, which has recently been published by the American Library association. In it he deals with the everyday problems confronting most parents of young children, such as their physical and mental needs, play, habit, emotions; and he suggests for further reading a few practical books which will help prepare the young child for an active, useful and happy life.

The Young Child is one of the Reading with a Purpose series, which now consists of 39 reading courses on a variety of subjects. These and the books recommended in each will be found at the New Castle Public library, according to Miss Alice Sterling the librarian.

NEGRO MURDERER PLACED ON TRIAL

(International News Service)

PITTSBURGH, Nov. 27. — The trial of Levi Coleman, Donora negro charged with the murder of his sister-in-law Bertha Thomas, 15 of Donora, began in criminal court Monday. The girl's body was found in Love's hollow, May 10 last with her skull fractured. She had been beaten on the head with a stone.

The state contends that Coleman slew the girl to collect $200 insurance. Judge W. A. McConell of Beaver county is presiding at the trial.

THE WAY OF A HEALTHFUL DAY

A morning dish of ALL-BRAN prevents constipation

Clear eyes. Fresh complexions. Buoyant spirits. They all come when the right kind of food is eaten. One of the main things that our modern diet lacks is the roughage necessary to prevent constipation, which is the cause of so much ill health.

Kellogg's ALL-BRAN will furnish the bulk you need to keep well and fit.

ALL-BRAN is 100 per cent bran. It supplies roughage in effective quantities. Far better than part-bran products. At best, they can be but partially effective. ALL-BRAN is guaranteed to relieve constipation. Two tablespoonfuls daily — chronic cases, with every meal.

An appetizing, healthful cereal of unusually nutritious qualities. Serve it with milk or cream and add fruits or honey. Use it in cooking too. Sold by all grocers. Served everywhere. Made by Kellogg in Battle Creek.

Struck As He Boards Trolley

Accident Occurs Near Pennsylvania Station; Other Accidents

C. A. Furgione, 716 Erie street, sustained a badly sprained left foot Monday, when he was struck by the automobile of Alton Gerlach, R. D. No. 3, as he was in the act of boarding a street car at the Pennsylvania station stop according to the report made to the police.

Mr. Furgione was standing waiting for the street car going east on West Washington street at the Pennsylvania station stop. When the street car arrived at the stop and had come to a stop Mr. Furgione was just in the act of getting into the car when the Gerlach machine also going east struck him. The car ran over his left foot and also knocked him down.

Mr. Gerlach took Mr. Furgione to the office of a physician where it was found that no bones had been broken but that he had sustained a very severe sprain.

Other Accidents.

Dr. Elijah Kaplan, 223 North Mercer street, reported to the police Monday that he was driving north on Jefferson street at Grant street and making a turn to go east on Grant street when a car bearing Pennsylvania license 320-904 going in the same direction and making the same turn collided with his machine. Both machines were damaged.

Charles Sapienza, 122 South Beaver street, reported Monday that he was driving a truck north on Mill street and making a turn to go west on Water street when his machine was in a collision with the truck of Dick Allen, East street and driven by R. Hill, which was going south on South Mill street. Both machines were damaged.

Telephone Company To Have Reception

A demonstration of a modern telephone central office in operation and how calls are actually handled will be given by the Bell Telephone company at a reception for the public to take place Friday evening at the central office of the New Castle district, 31 South Mercer street.

The reception, states W. R. Bingham, district manager for the company, will extend from 7:30 to 10 p. m.

W. R. Bingham, district manager; C. A. Bolen, district plant superintendent; Clara M. Dart, chief operator; and F. C. Maine, plant wire chief, assisted by expert guides, will conduct the company's guests on a comprehensive tour of the central office.

Card of Thanks

I desire to thank the neighbors and relatives for their kindness and sympathy shown me during my recent bereavement at the death of my mother, Frances Ferver; also for the beautiful floral tributes and for cars donated.

HUNTER IS KILLED TRYING TO GET OWL

YOUNGSTOWN, O., Nov. 27.—A. L. Sweeney, 22, was shot and killed when his gun discharged as he attempted to dislodge an owl from a tree with the butt of the gun. The charge struck the man full in the chest, causing immediate death. A companion, Richard Orr, carried the body through the woods to a main highway.

Cathedral Will Show "Annapolis" On Thanksgiving

University Of Alabama Football Star Is Hero Of Great Naval Drama

STORY WRITTEN BY ACADEMY PROFESSOR

Endorsed by the Navy department of the United States, and recommended as a true picture of life at the United States Naval Acadamy, "Annapolis," starring John M. Brown, Alabama University football hero, will form the centerpiece of entertainment at The Cathedral Thanksgiving day, according to Herbert Pearis, manager of The Cathedral auditorium.

"Annapolis" was screened almost wholly in the vicinity of the Naval Academy, and it is a production that is sure to delight the motion picture fans of New Castle and Lawrence county, both by the playing of the leading characters, and the direction of Christy Cabanne, a graduate of the United States Naval Academy.

Then, it is a true story of life at the Naval Academy. In fact, the story was written by Royal S. Pease of the Academy's Department of English. It is dramatic, thrilling, and has that gripping quality which holds the spectator's attention from the start to the finish.

A special musical score has been arranged by The Cathedral organist, Thomas Webber, and alone, this display of an organist's technique will add materially to the entertainment program. Then, there will be the usual comedies, news events and features.

The service holds a glamour for everyone, and everyone who wishes to see the real picture of the future defenders of the nation will do well to give "Annapolis" their serious attention.

Deputy Escapes In Auto Wreck

Larry Gent deputy to Havey Boyle boxing commissioner escaped serious injury last night when a car which he was driving from Franklin to Jolly Bowl, New Castle overturned three times on the Harlansburg road three miles from this city. The car was wrecked badly but outside of bruises and shock the deputy boxing commissioner was not seriously hurt. He presided at last night's fistic show at the bowl.

Special Services At Croton Church Wednesday Evening

SEVENTH WARD NEWS

Excellent Program Presented Monday In Mahoning School

Auditorium Filled To Capacity; Other News Notes Of Seventh Ward

With the auditorium filled to capacity the minstrel show was presented Monday evening in the Mahoning school auditorium. Between one-hundred and seventy-five and two hundred girls and boys, pupils at Mahoning school took part in this minstrel program.

The program was splendid and excellent performance being given. Needless to say the audience enjoyed the entertainment, there was a lot of comedy furnished by the end men, which was responded to with much merriment on the part of the audience.

This program will be given again this evening at 8 o'clock in the school. Last evening a number of people were turned away, the auditorium only seating about three hundred people. Because of demand this program will also be given on Wednesday evening. Making three evening performances.

Charles McAuley, as interlocutor, carried off the part of master of ceremonies in a most creditable manner. The six end men, black face comedians clad in costumes of green and white furnished comedy throughout the program. End men were, Tony Fusco, Joseph Mingione, Daniel DeMarco, Harold Morgan, Charles McFarland, Nick Rapp. These boys were fine, their jokes and stories were well told.

All numbers were in costume. The chorus of twenty-five girls and boys dressed in costumes of orange and white sang in eight different numbers. Dances were good, the bubble dance, oxen dance and black and white dances and clog. The black and white dance was clapped back and repeated a part of the dance again as an encore. Other numbers were good, including, the pirate number, "Walk the Plank," the act by Primary grades etc.

The program presented was as follows:

Orchestra number, "Ole Man River," orchestra of Mahoning school dressed in white with black ties.

Opening chorus, "Look Who's Here" by chorus.

"The Street Car," by Mingiono, Fusco, DeMarco.

"Silver Lining," chorus.

"How do you feel," (Phonograph needles), Rapp and Morgan.

Selection, by Rythm band, by Primary grades.

Gee Whiz, Jack Reeves.

Oxen dance, group of Intermediate boys.

Dog story, Rapp.

"De West Wind," Mary Wrona, Mingiono and chorus.

Clog dance, Junior High girls, Mildred Johns lead.

Lindbergh story, Morgan.

Aeroplane song, group of Intermediate boys dressed as aviators with toy airplanes.

Magician stunt, Charles McFarland.

Saxophone and clarinet solos, "Felix the Cat", Philip McGuire.

Tony on the phone, Dan DeMarco.

Vertebra story, Fusco and McFarland.

Animals in the Ark, chorus and Intermediate boys dressed as animals.

Elephant joke, Rapp.

"Hurry Along," chorus.

Three numbers by Primary grades, Sing, Yanki San, by group dressed in gay colored kimonos. Sleep Fairies, four children in night attire with candles. Fairy dance, group of six girls dressed as fairies.

Egg story, Morgan.

"Quit Dat Ticklin' Me," Mary Jenkins and Virginia Pacurar, dressed as two colored girls.

"Bubble Ship," chorus.

"Bubble Dance," by Junior High girls, dressed in costumes of pastel shades, with a balloon on each hand.

Tamborine dance, by end men.

"Walk the Plan," Junior boys dressed as pirates.

Gratitude, Mingione and McAuley.

Monkey ribs, McFarland, Fusco.

"Cinnamon Cake," song by chorus.

My Banjo, Albert Felix.

"Black and White Dance," Twelve Junior High girls, dressed in ballet costumes of black and white.

Dynamo story and Football story, Rapp.

McFarland's dance, Charles McFarland.

Lazy Shepherd, Mingione, Pig's feet story, Morgan.

Closing chorus, entire company.

Boy Scout News

NEW WILMINGTON SCOUT NEWS

The New Wilmington Troop No. 1 held their regular meeting on Tuesday evening, November 20th. The meeting was called to order by the Senior Patrol leader and bugler. Scoutmaster Jack Hulme was in charge of the meeting. There were several instructions given to the troop by the scoutmaster.

Candidate William Pitzer said the scout oath before the troop and became a Tenderfoot scout. He was appointed into the Moose patrol, under the leadership of Charles Criss.

The meeting was adjourned by the scoutmaster.

The next meeting will be held next Tuesday evening at the regular time.

Scribe: Thomas Rogers.

ELKS' TROOP NO. 5

A very interesting meeting of the Elks' Boy Scout troop was held Thursday evening, November 22nd at the Elks' home. Scoutmaster R. F. Davis was in charge of the meeting. He was assisted by Walter Kerr, assistant scoutmaster, and Mr. Mills, troop committeeman. Mr. Mills was elected by the Elks' club to fill the vacancy of Claire Stockman.

The meeting opened with the usual ceremonies. The Lord's prayer was led by Louie Malls. There were several visitors present.

Four new members were voted into the troop. They are Tony Cooper, Andy Maki, Ernie Niemi, and Bill Chullis. The new boys are requested to be present at the next meeting.

Scoutmaster Davis informed the boys about the coming events for the winter. The first big event of the year is the cooking meet which is to be held at the end of the Highland street car line at Whaley Vale. The meet will be held December 15, 1928 between the hours of 10:00 a. m. to 2:00 p. m. The next big event will be the Fathers and Scouts banquet on January 10th, 1929 in the Carnegie auditorium. The great First Aid meet will be held March 1st in the Carnegie auditorium. The troop is planning to enter a team for this event.

The Troop Court of Honor will be held December 18, 1928. The Court of Honor of Troop 18 and Troop 5 will be combined and will be held in the "Highland Caves".

The Patrol contest is advancing. The Lions patrol is leading. Many of the boys are bringing in projects for points for their patrol. Some of the projects are knot boards, mineral boards, tie racks, and broom holders.

At the last meeting of the troop target practice was held and Bob Brown was the winner. At the next meeting target practice will be held and any one from the troop wishing to challenge Bob Brown may do so at that time.

Mr. Mills gave an interesting talk. He also invited the troop to attend the Memorial service of the Elks club to be held December 22, 1928 at 2:30 o'clock.

Scoutmaster Davis told the boys that he had received a letter from the Department of Forests and Waters telling him about the Forest Guides badge. The following boys are getting forest guide buttons, pins, or bars: Tony Mick, Walter Kerr, Angelo Cimini, Alfred Howard, Lee Colaluca, Harry Valentino, John Morgan, Alfred Lattavo, Domnick Morgan, Louie Malls, Kimmel Barbour, Ed. Hoon, But Purdue and Harry Brown.

The boys signed up for membership to the Y. M. C. A. Mr. Jake Rentz gets the boys membership to the Y. M. C. A. every year and the boys thank him very much. The boys must have good attendance records or his membership is dropped at the Y. M. C. A.

At the next meeting a fire by friction contest will be staged. Other contests are to be held at the meeting.

Because of Thanksgiving the troop will hold its meeting on Friday evening, November 30th, instead of Thursday evening. The meeting will start promptly at 7:30 o'clock and end at 9:00 o'clock sharp. A full attendance is requested at this meeting.

Christmas Seal Drive To Open

Seals Will Be Sent To 6,000 People Of New Castle And Lawrence County

Monday afternoon, December 3, 6,000 envelopes containing tuberculosis Christmas seals will reach 6,000 families of New Castle and Lawrence county, sent by the Lawrence County Tuberculosis society. Each package will have in it 100 Christmas seals and a return envelope, in which the recipient should place $1 and send it to the Lawrence County Tuberculosis society, 8½ East street, New Castle.

In this way the annual Christmas seal drive conducted by the local tuberculosis society will get under way. Each year the seals are sent out and each year the returns are most gratifying.

What the local society does with the money is told by Miss Della A. Glenn, secretary for the Lawrence County Tuberculosis society. In the first place, some of it is used to sponsor the well-baby clinic, which meets every Thursday morning at the New Castle Dry Goods company. By means of this money, toxin anti-toxin is administered in the county schools. Tuberculosis patients that go to the state sanitoria are assisted. Supplies for a modern health crusade are furnished to any school that wants the program.

Part of the work of the Lawrence County Tuberculosis society is preventative, and the society feels that in getting children interested in the modern health crusade, getting them to drink milk, and in getting parents to realize the value of milk to their children, they are doing something vital to the welfare of the community.

Last year a tuberculosis clinic was held at the Elm street branch of the Y. W. C. A. and much work was done to help the people to realize what must be done to prevent tuberculosis.

A LETTER TO THE MOTORIST

New Castle, Pa. Nov. 27, 1928.

Subject:—New Green in color HI-TEST TYDOL—an Anti-Knock Premium Gas at no Extra Cost.

DEAR MOTORIST:—

We have some news for you--good news. Our refinery has perfected a new gasoline that combines the three elements so necessary to the economical operation of your car—

(a) VOLATILITY

(Which means instant starting, faster getaways and livelier action on the road)

(b) ANTI-KNOCK

(Which means smoother action, new quiet and new safety for your motor)

(c) SUPER-POWER

(Which means better mileage, greater economy, and more efficient performance)

The Name of this New Gasoline is Hi-Test Tydol

It is a brilliant emerald green in color. There is nothing comparable to it, either in color or in the results it gives, available anywhere.

Yet it does not sell at a premium. With all its premium qualities, it costs no more than ordinary gasoline.

Hi-Test Tydol is on sale at all stations handling Sutton Products.

WILL YOU GIVE HI-TEST TYDOL A TRIAL?

Yours very truly,

SUTTON GASOLINE COMPANY,

(Signed) G. W. SUTTON, Mgr.

P. S.

Tide Water's Golden Anniversary, and the introduction of the new HI-TEST TYDOL will be broadcast over the Red Net Work of National Broadcasting Company, Thursday evening, November 29th, from 6:00 to 7:00 o'clock. Local station WCAE, Pittsburgh.

Keith Attacks State Teachers In Conference

Says 50 Per Cent Of Teachers Merely Listen To Recitations In Classrooms

FEW ARE FOUND TO BE COMPETENT

(International News Service)

WEST CHESTER, Pa., Nov. 27.—"Fifty percent. of the so-called teaching in the schools of Pennsylvania is a mere hearing of lessons," charged Dr. John A. H. Keith, state superintendent of public instruction, in an address to the 500 instructors meeting here for the seventh annual conference of the State Normal Schools and Teachers Colleges.

"Schools are something more than knowledge shops," he said. "Children must be taught facts and they must be developed also in terms of an ideal pattern of citizenship as members of society. We must also develop that thing called initiative so the boys and girls may make contributions to the civilization in which they live."

Only 20 percent. of the state's 58,000 instructors were classified as "master teachers" who follow this policy, by Dr. Keith. Thirty percent. were listed as those who endeavor to find methods and devices to arouse the interest of their pupils while the other 50 percent. were placed in the mere "hearing-the-lesson" division.

T. F. Allen of the East Stroudsburg Teachers College presided over the sessions this forenoon. The conference closes tomorrow evening.

ROYAL FAMILY ANXIOUS OVER CONDITION OF KING

Although all of Great Britain is concerned over the condition of King George V, the most anxious are the immediate members of the royal family. Photo shows the wife and five children of the ill monarch, and Buckingham palace, his home: (1) Queen Mary; (2) Duke of York, second son; (3) Viscountess Lascelles, his daughter, the former Princess Mary; (4) Duke of Gloucester, third son; (5) Prince George, youngest son; (6) Prince of Wales, heir to the throne; (7) Buckingham palace.

Agricultural School Aids, 4,098 Farms

COLUMBIA, Mo., Nov. 27.—Model homes were built on 30 farms from plans provided by the engineering school of the University of Missouri college of agriculture and 26 farm homes were remodeled by students' plans during the past two years.

The extension directors' biennial report shows that 4,098 farms obtained aid from the farm engineers. Hundreds of swamps were drained, thousands of acres received drainage systems, stumps on 799 farms of 46,000 acres, lighting and watering systems were installed and sewage disposal plants were built through the school's aid.

War Department Gets Report On Island Typhoon

Philippine Islands Suffered Enormous Losses; Very Few Lives Are Lost

(International News Service)

WASHINGTON, Nov. 27.—A report on the typhoon which struck the Philippine islands last Thursday and continued for two days was received by the war department today in a radio dispatch from Governor General Henry L. Stimson.

"There was little loss of life thus far reported," Stimson said, "and it is believed when further details come in it will be greatly augmented, due chiefly to timely warnings of hurricane from the Manila observatory.

"I can say now, however, that the Philippine islands have suffered from a major disaster in the shape of one of the most destructive hurricanes by which it has been visited since the American occupation."

Buckland May Land Post Of Presidency Of Eastern Railroad

(International News Service)

NEW YORK, Nov. 27.—The name of Edward G. Buckland, of New Haven, Conn., was mentioned prominently today as a possible successor to Edward J. Pearson, whose resignation as president of the New York, New Haven and Hartford railroad was accepted at a meeting of the directors of the road here last night. Pearson, who had been president of the road since 1917 when the late Howard Elliott resigned, submitted his formal resignation last week because of poor health.

Buckland, a vice-president in charge of the law department, also is vice-president of several of the road's subsidiary enterprises.

Diogenes Tub A Myth; Lived In Jar, It Is Said

CINCINNATI, Nov. 27.—Diogenes did not live in a tub as boys and girls are taught in school, Dr. David Moore Robinson of John Hopkins University said in an address here today. His domicile was one of those large earthen jars similar to the ones excavated at Olynthus, a city destroyed by Philip of Macedon in 348 B. C., Dr. Robinson said.

Dr. Robinson described the jars as 8 feet tall and 10 to 15 feet in diameter. He said they were commonly used for storing grain and that occasionally poor citizens lived in them.

Caliphs Gather On December 4

Fall Ceremonial To Be Staged At Cathedral; Expect Large Class

Another large night is in prospect at the cathedral on December 4, when the Caliphs of Bagdad put on their fall ceremonial.

This is an iron clad oath bound organization of over 1600 members ruled by a board of directors, and it is said that no one knows who the board of directors are except the Chief Caliph himself in the person of the genial Howard B. Richards, at any rate when he smiles, the candidates shiver.

The chairmen of the various committees which are arranging the affair, are Stanley Treser, Welty O. Rugh, John Elliott, Robert Thompson, Russell Melvin, Ed Prichard, L. Drumm, George Bachtol, J. Sypher, Albert Street, Jess Preston, W. S. Teets, and Hon. Barton E. Richards.

These affairs wind up with a banquet at midnight, and the indications are that when the green fezzes begin to swarm around the Cathedral next Tuesday night, that there will be a class of over two hundred candidates on hand for the trip across the desert, or whatever it is that happens to candidates for this degree.

The ceremonials of the Caliphs draw members from all the surrounding towns, as far away as Franklin, Oil City, Butler, etc., and several bus loads never fail to drive in from Emlenton, and points beyond, no matter what the weather.

The Caliphs of Bagdad have a habit of adding to the gayety of the nation, by putting "Ladies Nights" from time to time, to which are admitted the wives and families of the members, and these affairs are high spots in the Fraternal life of the city. The next occasion of this kind is scheduled for January.

Ezra Meeker Near To Death's Door

Doctors Hold No Hope For Recovery Of 98-Year-Old Pioneer Trail Blazer

(International News Service)

SEATTLE, Wash., Nov. 27.—Although he was still in a state of coma, Ezra Meeker, the 98-year-old trail blazer, was still clinging to life tenaciously early today.

His physicians have abandoned hope.

They said he might die within a few hours, or, because of his wonderful stamina, he may linger on for several days.

Skeleton Mystery Is Finally Solved

MOUNT HOLLY, N. J., Nov. 28.—The mystey arising from the discovery of a skeleton two days ago buried in a deserted garage at East Riverton was solved today by Joseph Kearns, seventy-seven, of Riverside. The bones were thought at first to be those of Charles Rodgers, an engineer, of Haddonfield, who disappeared seven years ago.

Kearns told County Detective Ellis H. Parker today the skeleton was that of a man washed ashore at the foot of Union Landing road, on the Delaware river, East Riverton, sixty-seven years ago. Kearns declared his father had often pointed out the burial site to him as "the grave of the unknown." The man wore leather boots when found, he said. Vestiges of a pair of boots were found near the skeleton.

Worker's Hunch Averts Disaster By Hidden Nitro

CEDAR RAPIDS, Ia., Nov. 27.—A "workman's hunch" probably averted a tragedy here. A house that had been built 60 years ago was being wrecked. The workmen found a pint bottle between the walls and was in the act of hurling it among the rest of the debris when he had a "hunch" to examine the bottle. It was marked "nitro-glycerine." The bottle was dumped into the river.

Second Officer Of Vestris To Testify Today

Leslie Watson, Second Officer On Ill-Fated Liner, Will Be Grilled

LEGISLATION MAY NOW BE ENACTED

(International News Service)

NEW YORK, Nov. 27.—Stung by newspaper criticisms that his investigation into the sinking of the liner Vestris was accomplishing nothing, United States Attorney Charles H. Tuttle let it be known today that constructive action toward averting similar disasters in the future will be taken when congress meets next month. An attempt will be made to enact regulations designed to increase safety at sea, the legislation being based on technical opinions offered at the present investigation.

Leslie Watson, second officer of the Vestris, was to take the stand at the resumption of the investigation this afternoon if his health permitted. Watson, who is suffering from internal injuries in a hospital, was to have testified yesterday but was not sufficiently recovered to face the ordeal.

Lifeboats Hanging.

Watson, it has been testified, had charge of lowering the lifeboats on the port side of the ship which contained women and children and which were left hanging there when the ocean swallowed the ill-fated vessel.

Watson and Frank W. Johnson, chief officer, may also testify at the United States steamboat inspection inquiry which will be resumed at the customs house this morning after a four-day adjournment. William Whiting, secretary of commerce, and the officials in charge of this inquiry have been in Washington reviewing evidence submitted as to the seaworthiness of the Vestris.

Your Broadway And Mine

By WALTER WINCHELL

Exclusive Central Press Dispatch to The New Castle News.

NEW YORK, Nov. 27.—The penalty of freak fame is exemplified again in the case of Fred Hansen, the lad who snapped pictures while the Vestris collapsed at sea. One newspaper has been receiving complaints from readers, one of which growled: "What was this guy Hansen doing taking pictures when he might have been saving lives?"

A sound argument, perhaps, but a man who would take pictures on a sinking ship is not to be handled harshly. He probably is the sort who collects old coins, foreign stamps, cigarette coupons or autographs.

THE HECHT YOU SAY!

"Dear Walter," affectionately writes Ben Hecht, collaborator on the hit "The Front Page," newspaper play, "I have definitely learned that the man murdered in room 349 was not Arnold Rothstein at all! It musta been two other felons."

But you're wrong there, mister. The police haven't found out much about the mystery, but they have learned that the dead man certainly was Rothstein.

THANKS FOR THE AD

Editor H. N. Swanson of Collitch Humor writes in the current number: "Lois Long's column doesn't appear because she just presented her husband with a baby girl. By the way they have named their poodle Meadows, so that the neighbors will think they have a butler."

BEHIND THE OBSCENES

Certain sectors of Broadway are amused at the "inside" story of a producer of a musical show whose "heart" is in the production. He learned that he was receiving the attentions of the musical director, so, instead of firing her, he dismissed the baton juggler.

The other night the press agent of another attraction flirted with her, and they became fast friends.

The producer's spy lost little time telegraphing him to hasten to Philadelphia, where the show is playing, and the jealous sponsor (who has a description of her "flame") goes back stage every performance and inspects every face in the male chorus, looking for the culprit.

The other side of the yarn is that when it is related to various Broadwayferers who have sweethearts with the same show, they invariably frown and inquire:

"Do you know her name? It's probably my girl!"

And, most likely, it is!

* * *

MOOM PITCHER STUFF

A flicker star, a wow so long as he remained voiceless, recently took a sound test, which was scored a miserable minus. The director communicated the sad news to the ex-garmenteer who owned the actor's contract.

"No good?" repeated the magnate. "What was the matter?"

"Well," explained the director, "everything he said sounded guttural."

"Guttural he talks," exploded the boss. "Don't let him fool you. He can talk in English. Ain't he from Kansas?"

The MORNING MAIL

(Or "Oop!")

"Dear Mr. W.," writes Franklin P. Adams of the N. Y. World, who clothespins his baby to a clothesline in his back yard, "my attention has been called to an article in a local newspaper saying that I hang my baby to the clothesline in the back yard. That isn't a baby; it's an effigy of Walter Winchell, because I am not one of those who think hanging is too good for him."

* * *

THE ROYAL CHATTER-BOXERS

One of the pillars of the popular-priced theater is Walker Whiteside, veteran pretender, who has brought joy, laughter, and, at times, tears to the provincials who flocked to whatever temple of amusement he brought his players. Last season, Mr. Whiteside played at a 42nd street theater in an innocuous piece which failed to prosper, but it was related at the time that the visit was purely an annual one to bring the "New York touch" to the more affable paying customers in the hinterlands.

At the Belmont theater, the star and his little group of troupers, which he directed, have returned to New York for what probably will prove another temporary stay. The play is "The Royal Box," written by Rose Coghlan's brother Charles, who adapted it from Dumas' "Kean," and it is rich with hammy material to please the most particular stage-struck actor.

Much of the "comedy romance" creaks, and the already retarded tempo is slackened by the principal player, whose delivery is deliberately slow. Yet at times he is a fascinating make-believer, this Whiteside, who appears to realize that he is better appreciated away from the stiff competition in New York. He attracted encouraging handclapping the opening night, at any rate. Hugh Huntley, Daisy Belmore and Elwyn Eaton were others who contributed gracefully enough to what is better described as an old-fashioned play and a feeble one.

RICHARD KOEHLER

Penn. Mother Knew the Way

Every mother knows what it means when her child begins to get underweight, pale, listless, bilious, feverish and fretful, with bad breath, coated tongue and no appetite. What every one of them doesn't know is that it's dangerous to use harsh methods to start the little stomach and bowels.

There's no use experimenting in such cases. Millions of mothers have proved the merit and reliability of pleasant-tasting, purely vegetable California Fig Syrup. It gently clears up the most stubborn cases of constipation; stimulates the appetite; gives tone and strength to weak stomach and bowels so they continue to act normally, of their own accord; and makes pale, lifeless children, bright, rosy-checked and full of energy.

A Pennsylvania mother, Mrs. F. Koehler, 250 Ithan St., Philadelphia, says: "My little son, Richard, developed constipation. He became bilious, pale and fretful; had no appetite and couldn't digest right. Being the mother of five children and having used California Fig Syrup with them for nine years, I knew how good it is, so I gave it to Richard. It regulated him quick. He began eating heartily and digesting everything. Soon he was his robust, happy self again."

Ask for California Fig Syrup by the full name so you'll get the genuine, endorsed by physicians for over 50 years.

Lassman Showing Some Improvement

New York University Football Captain Is Recovering From Severe Blow On Head

(International News Service)

PITTSBURGH, Nov. 27.—Albert Lassman, tackle and captain of the New York university football team, who suffered a severe concussion of the brain in the N. Y. U.-Carnegie game here Saturday, was reported as "very much better" by attaches at Mercy hospital today.

It was said Lassman may be sufficiently recovered within a week to be removed to his home. Members of the Carnegie Tech team here are keeping in close touch with the condition of the injured N. Y. U. player.

Lassman was injured during the last quarter of Saturday's game when he ran into two other players near the N. Y. U. bench. It is believed he may have struck the bench.

Weekly Meeting Of Phalanx Wednesday

The Phalanx fraternity of the local Y. W. C. A. will convene Wednesday night, November 28, at 6:30 o'clock, for the regular weekly get-together. Dinner will be served in the Y. W. cafeteria promptly at the above stated hour.

Following the dinner the members will re-assemble in the Phalanx program room for a business session, at which time reports on the benefit basketball ticket sales will be heard. The frat is staging a benefit game at the Y. W. on Thanksgiving night for the work that is being done among the boys at the Scioto street educational center. The proceeds will go to this cause.

HIGH BLOOD PRESSURE
Doctor's Discovery Reduces It Quickly and Dizzy Spells Disappear
Thousands who have dizzy spells, sleeplessness, nervousness, shortness of breath, pains in the head and impaired energy have been told by physicians or insurance examiners that they have high blood pressure. The serious results are well enough known to check it at once. High blood pressure caused by overtaxing the heart often brings on serious conditions.
Norma reduces high blood pressure. Often one bottle will do it. Many have so testified. It is a doctor's prescription and is much used by women at the changing time of life who usually have blood pressure above normal. Ask for Norma at any drug store.

Celebration Is Planned For New Wampum Bridge

Prominent Speakers To Occupy Platform For Formal Opening Of Bridge

ELLWOOD CITY, Nov. 27.—Members of the Wampum committee of the Chamber of Commerce on the opening of the Wampum bridge, met with M. A. Bickett chairman of the local committee working in conjunction, in Wampum, Monday evening.

No definite date was set, owing to the fact that the bridge is not completed, and has not been accepted by the court examiners. However, the men went ahead and planned the entire program and all is in readiness when the date is named.

The program will be as follows:—a parade from Wampum to Ellwood City and back by automobile, with a dinner at the First Presbyterian church at 5:30. Speakers will be Senator Weingartner, of New Castle; Charles Young, chairman of the public safety commission; Judge Wilson, president of the Portland Cement company and J. W. Offutt, representing Ellwood City. The P. and L. E. band will furnish music and the entire affair is expected to be very impressive and attract many of the railroad officials from Pittsburgh.

Kiwanians Hear Interesting Talk By Rev. King

ELLWOOD CITY, Nov. 27.—Thirty-five members of the Kiwanis Club enjoyed their regular weekly dinner-meeting in the dining-room of the Trinity Lutheran church Monday evening.

The regular meeting night is Thursday, but the meeting was pre-dated owing to the fact that Thanksgiving falls on Thursday of this week.

The speaker of the evening was Rev. John King of the Bell Memorial church, who gave an interesting and comprehensive talk on "The Fourth Dimension." This did not mean in concrete facts, but the fourth dimension in life. He defined the dimensions as being height, breadth, depth and age. He cited many interesting incidents, and the entire talk was most entertaining and educational.

The musical portion of the program was contributed by Allen Humphrey who rendered a saxophone solo accompanied at the piano by Miss Marie McKim, the club pianist.

The attendance record of the club has dropped to third place in the state, after having occupied first place for seven consecutive months.

Donations Pouring In To Club Here

Gifts As If From Horn Of Plenty Pour At Request Of Womans Club Here

ELLWOOD CITY, Nov. 27.—At the request last week for donations to be distributed to the poor, by a committee from the Womens Club of this city, all sorts of food, clothing and canned goods has been pouring in a steady stream into the room allotted to the club for this purpose in the Evans building.

The school children are contributing a large part of that amount, and many are taking the things directly to the Community Service rooms in the Simon building, as Miss Betty Sowrey, community nurse, has a list of needy people who can call for the donations there.

Mrs. Edward Mackasek, chairman of the Thanksgiving Basket committee for the Womens committee, sent out a plea for money from the club members instead of donations, and thus enable the committee to purchase what was needed for the baskets. A large amount of money has been received by the committee and one of the most abundant Thanksgivings will be enjoyed by the needy folk of this city.

Men Complete Plans For Opening Dance

ELLWOOD CITY, Nov. 27.—Members of the Men's Entertainment committee of the Ellwood Country club met at the home of their chairman, B. J. The Capture Of Aguinaldo (Part Two)

AFTER DECIPHERING THE INTERCEPTED CODE LETTERS OF AGUINALDO, GEN. FUNSTON FORMED A PLAN FOR THE CAPTURE OF THE FUGITIVE FILIPINO LEADER, AND WENT TO MANILA TO CONFER WITH HIS SUPERIOR, GEN. MACARTHUR.

IT WAS KNOWN THAT ALL THE ROADS AND TRAILS LEADING INTO THE GREAT CAGAYAN VALLEY WERE SO CLOSELY WATCHED BY THE GUERILLAS THAT THE ADVANCE OF ANY BODY OF AMERICAN TROOPS WOULD BE REPORTED TO AGUINALDO MANY DAYS BEFORE THEY COULD REACH PALANAN, THE INSURGENT CHIEF'S HIDING-PLACE.

FUNSTON BELIEVED THAT A FORCE OF FRIENDLY FILIPINO SCOUTS DISGUISED AS INSURGENTS COULD EASILY PASS THEMSELVES OFF AS THE REINFORCEMENT AGUINALDO WAS EXPECTING AND REACH PALANAN. GENERAL MACARTHUR APPROVED HIS PLAN.

FUNSTON PICKED SEVERAL TRUSTY FILIPINO OFFICERS AND 80 MACABEBE SCOUTS FOR THE HAZARDOUS UNDERTAKING. FUNSTON, HIMSELF, AND FOUR OTHER AMERICAN OFFICERS, DRESSED AS AMERICAN PRIVATES, WERE TO GO ALONG AND PRETEND TO BE PRISONERS TAKEN ON THE MARCH.

REED GETS DECISION OVER GOODMAN

Goodman Unable To Solve Style

Dick O'Leary Of Wilkes-Barre Wins Over O'Brien Technical "Kayo"

COLLINS TOO BIG, STRONG FOR ROMEO

BY ED. FRITZ

Jimmy Reed of Erie, Pa., defeated Joey Goodman of Norfolk, Va., in a ten round bout last night at Jolly bowl. The decision was given by Referee Red Robinson after the judges, Faust and Sussman differed. Reed weighed 134 and Goodman 131½.

During the bout Reed was guilty of holding and hitting, pulling and striking and wrestling and when the time came to sum up the points Judge Sussman penalized Reed for these tactics while Faust decided in favor of Reed and Referee Robinson cast the decisive vote.

Goodman was outsmarted by Reed. He lacked the experience but neither landed a punch that put either of them in a state of weariness. Joey couldn't solve Reed's style and Reed's uppercuts to the body and chin didn't seem to cause the Hebrew any worry.

Goodman Forces Fight

Goodman forced the fight and tried time and again to deliver a right to the chin. Invariably it skidded over a humped left shoulder or landed on the 'side-wheeler's back. Goodman, however, did land some left hooks but couldn't connect with the chin.

Reed proved a hard foe to force into an aggressive frame of mind. He perferred to wait, counter, fall into a clinch and work to the body. In close Goodman fought to the stomach and head but his left which flattened Conley did not strike a vulnerable spot.

O'Leary Stops O'Brien

Dick O'Leary, 121, Wilkes-Barre, Pa., a classy fighter who knows how to punch, made short work of George O'Brien from below the Mason-Dixon line who has been cavorting around Erie. O'Leary tumbled him in the first and settled O'Brien's case in the second.

When they stepped out it looked for a minute as though it was going to be a great fight and it really was a scintillating affair for a minute or two. When O'Brien shot his right O'Leary beat him with his right and down went O'Brien for a count of nine.

The Wilkes-Barre lad bided his time and instead of leaning another right to the chin, which O'Brien was watching for and guarding against Dick lifted left hooks to the stomach to tear out the Southern boy's "foundation."

The bell rang and between the session O'Brien partly recuperated. Dick went right after O'Brien and sent a right to the jaw that rolled O'Brien for a 'five.' When he got up another right sent him down for 'eight' and when he was floored again the fight was over.

O'Brien was trying to get up and really was up as his hands held his body up from the floor. As he straightened O'Leary started to rush across the ring when the referee mercifully stepped between the boxers and gave Dick the fight on a technical knockout.

Collins Beats Romeo

Ray Collins, a tow-headed 131 pounder had weight, reach, heighth, and experience on Romeo Pacelli 128, last night and outpointed the New Castle boy. The Erie lad proved too strong for Romeo and though Romeo and he put up a good fight, Collins won, the judges opined.

Collins, who apparently wanted to slug at every opportunity proved that he could give a punch and take a 'sock' though Romeo did not fight with his usual cleverness last night. He held his punches, especially his right at different times during the battle.

Elmo-Farrow Draw

Elmo The Mighty and Warren Farrow staged a four rounder but the fight was not as fierce as their preceding settoes. The judges differed on the decision as Phil Sussman thought that Farrow should have had the decision. The referee decided.

There were a thousand swings that were missed and plenty of grimaces but there were few actual haymakers landed and neither one took any chances on being kayoed. No doubt the two now have learned to respect each other and new opponents for each may be had.

Litz Kayoes Mancine

Eddie Litz, an experienced ringster from Warren, O., stepped into the first battle with Charlie Mancine of Ellwood City, a first nighter and after Litz had knocked the courageous but inexperienced Mancine down the referee stopped the bout.

The referees last night were George Chip, first three bouts and Red Robinson, semi-final and windup battles. The judges were Charles Faust, New Castle and Phil Sussman, Pittsburgh. Pete Capitola kept the clock and Larry Gent was the deputy commissioner.

Datto And O'Leary Signed For Bouts

Johnny Datto, Filipino, Cleveland, has been signed by Jimmie Dunn to battle Mike Marcells of Rochester, N. Y. Friday night at Erie. Dick O'Leary of WilkesBarre, who stopped George O'Brien here last night will box Billy Kelly of Scranton in a ten round bout at WilkesBarre, next Tuesday night. Henry Firpo who outpointed Mickey Fedore by a big margin at Dayton, Friday night may fight at Meadville within two weeks.

Additional Seats At Franklin Field

Faculty Manager Ralph H. Gardner announced today that he is placing on sale in the Sporting Goods store, 800 to 900 good reserved seats for the New Castle-South High game Thursday. The seats will sell for $1.50 each.

The new seats are of the knock-down wooden bleacher variety and will be located in front of the concrete stands. The bleachers will not be high enough to obstruct the view of anyone sitting in the concrete reserved section. The bleachers are now being installed.

Gardner also announced today that at least 1,500 additional seats had been placed at the two ends of the field. Altogether the additional seats for the big Thanksgiving Day game will total close to 2,500.

Evans And Babe To Toss Blows Tonight

Dick Evans and Babe McCorgary battle in a 12 round bout tonight at Rayen-Wood auditorium. Johnny Kusic and Harry Taylor go on in the semi-final. Bud Bollender opposes Johnny Ohiodo, Dom Profio meets Lawrence Madge, and Maxie Brown takes on Johnny Higgins.

Twelve New Castle High Gridders To End Careers In Thanksgiving Battle

Twelve Stalwart Gridders To Don Red And Black Uniforms For Last Time

Ten Veterans Left At Senior High As Nucleus For 1929 Grid Team

By "BUGS" WALTHER

Thursday afternoon at Franklin field 12 New Castle High school gridders will end their scholastic football careers. The afternoon will long be remembered by them. Many will have that sinking feeling as they don the old regalia for the last time.

The players on this year's team who will be missing next season are: Tommy Harper, Tony Ostrosky, Paul Cuba, Arthur Sillman, Angelo Mooney, William Howley, Robert Dinsmore, Herbert Smith, Kenneth Dufford, Arthur Craft, Andy Beres and Nick DiCarbo.

The departure of the above mentioned crew will leave many gaping holes in the line and backfield. Of this list four are backfield men and eight are linemen. The entire list will either graduate next June or be ineligible due to having played the required number of years.

When Coach Philip H. Bridenbaugh issues the call for 1929 candidates the following will be on hand to form the nucleus of the squad: Bennie Ciccone, Toby Fernati, Merle McIntosh, Glenn Shaffer, Ralph McAuley, Art Alexander, Bruce Alexander, Waggoner, DiThomas, Bender and Hoose.

Harper to Go

"Tommy" Harper, the "battering ram", will make his final appearance. Harper has been a tower of strength to New Castle High school football. No one will dispute that fact. In his first year here he made the varsity team as a fullback and has not been replaced in the three years. As a line plunger and cool, level-headed player Harper has few peers in the W. P. I. A. L., and he will be missed next year.

Harper is always dependable when the team needs a first down with three or four to go, his stocky frame and driving power having aided him in his shining success.

Sillman is another boy the type of Harper, cool, level-headed and a good field judge. Arthur has directed the team through two seasons in a most excellent manner. This year Sillman blossomed forth as a ball-toter of the highest type and has considerable yardage to his credit.

At the ends Coach Bridenbaugh will have to replace Ostrosky and Craft and this is not going to be an easy task. Tony Ostrosky has been an all-scholastic end for three years and is one of the reasons for the success of the team. Craft is concluding his second season at right end and has filled the bill quite capably. Craft is a tall, rangy player and is good at diagnosing.

Four Guards Through

Four very good guards will be missing at the call next year: Angelo Mooney, Andy Beres, Nick DiCarbo and William Howley. Mooney and Howley have been used as guards, but DiCarbo after serving two years as guard has been converted into a backfield man and has shown his worth. The loss of the hard-fighting Mooney is a big blow to the forward wall. The little Italian is the type of player that every coach likes to have on his line. Howley broke into the game last year and was used as reserve center some of the time and at a guard job. This year Howley got his chance when DiCarbo was moved to the backfield and has made good. Another youth deserving of plenty of credit for his showing this year is Andy Beres. Beres was used as a substitute end last year, but this year was converted into a guard, and is a good one.

Two big tackles will be missing, Paul Cuba and Robert Dinsmore. Both boys are giants in stature and weigh well over the 185-pound mark. The absence of this pair will be keenly felt. Cuba has played a regular tackle berth two years now and has also helped out in the punting department. Cuba is a good punter and did most of the kicking this year, being helped by Glenn Shaffer at various times.

Subs to Leave

Herbert Smith, substitute quarterback, will be missing next year. "Smithy", as the boys call him, has had a tough time in breaking into the line-up on account of Sillman and Shaffer, but he is a good, faithful worker and possesses real football ability.

Kenneth Dufford, the rotund substitute center, has filled an important role on the team. As an understudy to Ciccone the youngster has developed into a very fine snapperback and only the excellent work of Ciccone has kept Dufford on the bench.

Anyway, football fans and fanettes, when the boys prance out on the field Thursday, give them a big hand. Twelve boys of the highest standard having played the regulation length of time, will be out there humming the "Swan Song".

Harlansburg High Has Floor Team

With fourteen boys in the two-year course at Harlansburg High School, plans are under way to establish a first class basketball team at the school this year.

The old Methodist church building has been repaired in a manner that gives the school a good gym floor. The court is 35 by 50 feet.

Porter R. McCandless, principal of the school has had seven years coaching experience and hopes to develop a fast quintet this year. A fine athletic spirit has been promoted at Harlansburg and this is expected to greatly benefit the team.

PUNTS AND PASSES

(International News Service)

ITHACA, N. Y., Nov. 27.—At the conclusion of todays final home workout, Coach Dobie will pick the 35 Cornell football players who will be taken to Philadelphia tonight for the Penn classic on Thanksgiving day. Yesterday's workout was held indoors because of a heavy snowfall.

PHILADELPHIA, Nov. 27.—Paul Murphy, Penn halfback, is suffering from a wrenched shoulder and may not play against Cornell. Either Carroll Rosenbloom of Baltimore, or Dick Gentile will be his understudy.

NEW YORK, Nov. 27.—New York University's preparation for the Oregon Aggies consists mainly of defensive drill against forwards. The locals proved to be weak in this department against Carnegie Tech.

WEST POINT, N. Y., Nov. 27.—Army's final preparations for the Stanford game on Saturday were to begin in earnest today with the advent of warmer weather. Yesterday's practice was light owing to the frozen condition of the gridiron. The scrubs are being drilled in Stanford plays for use against the varsity.

NEW YORK, Nov. 27.—Joe Stanczyk flashy halfback, and other deposed Columbia regulars are again enjoying the favor of Coach Crowley, who announced that the same lineup which started against Penn would be pitted against Syracuse. Stanczyk ran wild in yesterday's practice.

SYRACUSE, N. Y., Nov. 27.—Syracuse plans to darken the sky with "passes" against Columbia in New York on Thanksgiving day. All the backs and ends are being drilled in the art of catching forwards on the run.

PITTSBURGH, Nov. 27.—Halfback French and Steven Hamas, veteran fullback, are the Penn State stars Pitt will be "laying for" on Thursday. Pitt is polishing up its defensive with the idea that it can win by stopping this pair.

WASHINGTON, Pa., Nov. 27.—Washington and Jefferson's gridiron warriors hope to redeem a poor season by conquering West Virginia at Morgantown on Thanksgiving day. The squad is in better physical shape than at any time since the opening of the season.

WASHINGTON, D. C., Nov. 27.—Coach Little's chief task in preparing his Georgetown players for the game with the undefeated Detroit team on Saturday at the motor city is to keep them "pepped up". The Hilltoppers are thoroughly exhausted by their gruelling contents with N. Y. U., Carnegie, West Virginia and Fordham.

Game Thursday To Start At 2 O'clock

Faculty Manager Ralph H. Gardner announced today that the Thanksgiving day game between New Castle and South High, Youngstown, would start at 2 o'clock. This is a change from the regular starting time.

It is likely that the big doors at Franklin field will swing open about 12:15 o'clock. There will be several thousand straight $1.00 admission tickets for sale at the game.

SPORTS DONE BROWN

By NORMAN E. BROWN
Sports Writer for Central Press and The New Castle News

The reverses suffered by the football teams of Alonzo Stagg, Knute K. Rockne and Fielding Yost—three outstanding figures of the coaching sphere for a number of years—may well be laid to something other than the current paucity of good material at those institutions they represent.

Consider this for a moment:

When Hurry Up Yost began to conquer all Gaul, with the dawn of the present century his "Point a Minute" machines attracted the attention of the football world. Quite naturally youths with the football germ in their systems hankered to go to the county seat of football—where the pigskin business was played at its best.

About that time Alonzo Stagg was also driving attention to Chicago, but it was the spectacular showing of Yost's teams through and about the 1903-04-05 campaigns that drew him the lion's share of attention.

Later came Rockne. First as a member of the Notre Dame elevens which won fame for the Indiana school, and then as its coach. Rockne built up a football organization that soon began to attract nationwide notice.

And be it said here that there were other men demanding a place in the football sun at that time, too, Tad Jones, Pop Warner, Percy Haughton, and others.

Other colleges were awakened to the importance of great elevens as first aids to placing their institutions in the public eye. They began what proved to be the slow process of gaining prestige in their own little worlds.

Next came the break for the "outsiders"—the colleges and the coaches thereof. This was the intersectional game.

With these intersectional games came many of the first big so-called "upsets." Teams from "foreign" parts, underestimated because of the national ignorance regarding their real worth, electrified the fans by upsetting the "dope" and defeating better-known rivals.

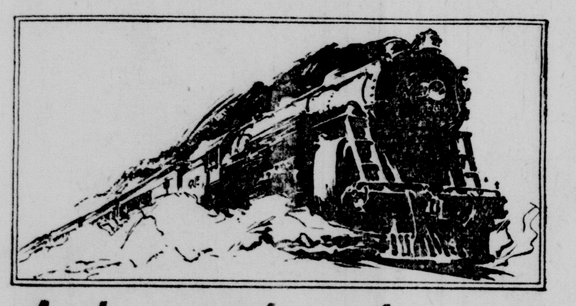

Intersectional victories tossed these institutions smack into the limelight. It became much easier to attract by legitimate means, outstanding high school football stars to these schools.

Stagg, Warner, Rockne and others of the leading coaches helped in this awakening by willingly pitting their teams against lesser known ones in intersectional games. Michigan has never gone berserk over the intersectional business, however. The point is, that little by little the lesser known colleges — athletically speaking — broke more and more into the spotlight.

Carnegie Tech is an illustration. Always rated high as a technical school, Carnegie was also recognized as a formidable grid opponent in the east. But it was not until that surprising upset a couple of years ago—the smacking Carnegie handed Rockne's Irish Crowd — that the nation in general realized that the skibos were turning out good teams.

All of which means that the "old guard" coaches are not drawing the material they once did. Rare coaching ability has carried them along at the top of the heap, but competition has become keener each year. They are being beaten these days — by their own children, so to speak.

MEN WHO SMOKE AND GUARD THEIR HEALTH, SMOKE CIGARS

85% of the Doctors interviewed on the Staff of Johns Hopkins Hospital, Baltimore—are Cigar Smokers

La Palina *is America's Largest Selling High Grade Cigar* [OVER A MILLION A DAY] its outstanding popularity is the best proof of its unusual quality

THIS survey offers conclusive testimony of the smoking preferences of members of the medical fraternity.

Cigar smoking never degenerates into a mere nervous habit. To enjoy the rich flavor of the cigar to the full, slow smoking is a necessity. One is not lighted from the end of another in cringing obedience to "nerves." Nor does the average cigar smoker inhale. And inhalation is a primary cause of nerve irritation.

It is the opinion of medical authority that throat troubles so prevalent amongst smokers are due to the burning, drying effect of hot tobacco smoke upon the tender tissues of the throat. Cigars cannot be the cause of these troubles—for, to quote a prominent New York throat specialist: 'Cigar smoke is cool, since the tobacco burns slowly and is cooled and filtered as it is drawn through the body of the cigar, and no quick-burning substance is used for wrapper".

Make this test for a week—smoke cigars exclusively and you will find yourself feeling better with no cough or throat irritation, improved nerves, increased vitality and less of that tired feeling. To really test cigars with justice to yourself and to cigars, we suggest the test be made with La Palinas.

Benefit Games To Be Played At "Y." Thursday

Three Fast Basketball Games At Y. M. C. A. Thanksgiving Night

SCIOTO STREET CLUB IN NEED

Thursday night at the Y. M. C. A. three basketball games will be staged as a benefit for the Scioto street club backed by the Phalanx Fraternity of New Castle. The first game starts at 7:30 o'clock.

The Acmes and Castles will tangle in the first game of the triple bargin bill and a lively contest is expected. Both teams are fast and they are confident of victory.

The second tussle of the evening will bring together the Phalanx Fraternity and the strong Temple Israel quintet. The Temple boys are out to win the Church league title this year and will use the Phalanx team as a starter. It will be the first game of the season for both teams.

In the big windup the Lincolns, former city champions, will tackle the strong New Wilmington All-Star team. The college town boys are coming to New Castle for a victory and they are said to possess a clever combination.

Thursday night should be a big night of basketball at the local Y. M. C. A., the games are being played for a good cause and the project is quite worthy of patronage. The program was arranged by Henry McNicholas, assistant physical director of the "Y."

City League Moguls Will Meet Tonight

All managers and officials of the City Basketball League are asked to attend an important meeting tonight in the Y. M. C. A. at 7:30 o'clock for the purpose of planning for the coming season.

The following teams should send their managers to the session tonight: The Castletons, Old Castle Five, Lincolns, Shenango Motors, High School, and Shenango Pottery.

THEY'LL GIVE HOWELL A GOOD RUN

Pictured are a few of the outstanding star fullbacks of the season, who will give Blue Howell, the great Nebraska battering ram, plenty of opposition for the position of fullback on the real All-[illegible] football team.

Democrats Spend Nearly $5,000,000 During Campaign

Three Persons Contributed $100,000 Or More Each Toward Campaign

ALBANY, Nov. 27.—Three persons contributed $100,000 or more each toward the total of $5,028,706.02 which the Democratic national committee received for 1928 campaign purposes, a report filed with the secretary of state by committee officials revealed.

Of the total $4,845,774.78 was expended.

Receipts included three loans of $500,000 each from the County Trust Co. of New York, according to the report signed by Jesse H. Jones, chairman of the finance committee, and James W. Gerard, treasurer.

John J. Raskob, chairman of the national committee, contributed $110,000 and William F. Kenny, boyhood friend of Gov. Smith, and Herbert H. Lehman, $100,000 each.

List of Big Contributors.

Other contributors and amounts were: Thomas Fortune Ryan, financier, who died last week, $60,000; P. S DuPont, M. J. Meehan, Harry Payne Whitney and Chas. W. Clark, each $50,000; William H. Todd, $35,000; Bernard M. Baruch, $33,000; Nicholas M. Schenck, B. E. Smith, Arthur Curtiss James, Oliver Cabana, Samuel Untermyer, Nicholas Brady, $25,000 each; Mrs. James C. Farrell, $20,000; Robert Sterling Clarke, Rudolph Sprackels, Edward S. Harkness, Henry Morgenthau, $15,000 each; Jesse H. Jones, $12,200; James Meehan, $12,000; James Gerard, $11,000; Nathan, Nathan, Jr., and Hugh Strauss, James J. Riordan, John F. christ, John McCormack, $10,0000 each.

Hoover-for-President engineers' national committee reported it received $61,727 and spent $53,238. Contributors included: Lamont DuPont $10,000; Daniel Guggenheim, $5,000; Thomas A. Edison, $325.

The campaign committe for Alanson B. Houghton for senator reported it received and spent $45,260 of which $20,000 went to the Republican state committee and $5,163 to the Steuben county committee.

HUNTER IS KILLED ON FATHER'S FARM

CONNELLSVILLE, Pa., Nov. 27.—Accidental discharge of his gun as he climbed a fence on his father's farm while returning from a hunting trip resulted in the instant death of Herbert Ream, 20, son of Mr. and Mrs. Joseph Ream of Confluence, east of here.

Becoming alarmed at the continued absence of the youth, the father organized a searching party. They found the body with a gaping wound in the chest.

Carpentero And Peters To Fight

Luis Carpentero, Filipino and Ernie Peters, Indian, both of whom fought great fights here with Willie Davies, Welshman of Charleroi return as opponents Monday night to Jolly bowl and fans will probably see one of the best fights staged at the bowl. As both lost to Davies but kept punching fans can expect a great fight. Each can hit and like to slug.

GEORGIA TECH IS WILLING TO PLAY CALIFORNIA TEAM

(International News Service)

LOS ANGELES, Cal., Nov. 27.—Georgia Tech's Golden Tornado is ready and quite willing to blast its way into the Pasadena Rose bowl on New Year's day to play the University of California in the annual intersectional classic.

This was the unofficial information received here Monday following a personal inquiry to Georgia Tech officials. They replied that the Tornado is anxious to make the trip west and that they are quite confident that Tech would win its two remaining games to preserve a perfect record for the season.

Automobile Stolen Near Jolly Bowl

According to the report made to the police last night, a Chevrolet coupe, Pennsylvania license X 5270 belonging to the Universal Sales company, was stolen last night from the vicinity of the Jolly bowl. The machine was finished in a sandy color.

FOUR GIRL WORKERS IN SILK MILL ARE OVERCOME BY FUMES

(International News Service)

WILKES-BARRE, Pa., Nov. 27.—When the vibration of machinery loosened the damper on the furnace and flooded the building with gas ten girls employed in the Alger Silk mill were overcome Monday. Six were removed to their homes after being revied and four were rushed to the hospital for further treatment.

Eighty-five girls were in the mill at the tnme.

Mitchell Brothers Are Very Promising

(International News Service)

NEW YORK, Nov. 27. — Jack Kearns, former manager of Jack Dempsey, has a couple of prize packages in Andy and Leo Mitchell, boxing brothers of Los Angeles. Both boys made a successful ring debut here last night.

Andy, smarting under the ruling of the New York State Athletic Commission that he wasn't good enough to box Young Stribling, he won a well-earned decision over George Hoffman, former national amateur champion.

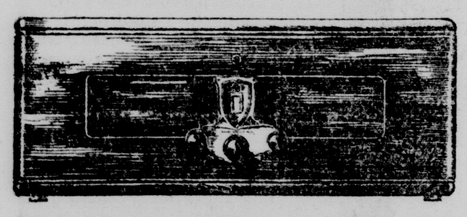

Leo knocked out Al Braddock, 17-year-old Jersey light-heavyweight, in the third round. Al is the younger brother of James J. Braddock, prominent in the light-heavyweight division.

Andy Martin Wins Over Johnny Datto

PITTSBURGH, Nov. 27.—Andy Martin of Boston, outpointed Johnny Datto of Cleveland, in a ten round bout at Motor Square Garden last night. Datto skidded Martin with a right to the head in the first round. Fans hung on relentlessly until the last bell in hope of seeing the Filipino again land his hard right but it did not reach a vulnerable spot as Martin was too clever and smart.

N. Y. STOCKS

(International News Service)

NEW YORK, Nov. 27.—The railroad stocks played a bigger part in the forward move of prices at the beginning of trading today. Bulls in the rails were happy over the action of New Haven directors in putting the common stock on a 4 per cent dividend basis and rushed in to buy the stock around 80.

American Can directors also made good by raising the dividend basis to $3 a share, as well as ordering an extra dividend of a dollar a share. Leading railroads sold up about a point on the average.

A new flare-up in the tightly cornered International Nickel sent that stock up 10 points to 221.

The pool in Yellow Truck gobbled up all stock offered around $50 a share.

Chandler Motor, common and preferred, was a favorite in the low-priced motor stocks. Money eased up, with the call loan rate at 7 per cent.

DOMESTIC ADJUSTMENTS

It is not a bad guess, says a prominent medical authority, that five per cent of the better educated women in America find it very hard to adjust themselves to the duties and limitations of domesticity.—Woman's Home Companion.

So the earth is slowing down? Yet it may be just the conservatism of middle age followed by a new show of pep as it gets older.

CLAIMS PROOF OF JONAH STORY

The Reverend C. J. Bellah, pastor of an Omaha, Neb., church, believes he has established proof of the Biblical story of Jonah and the whale and has prepared slides with which he illustrates his lectures on the subject. Above, a slide showing Jonah being thrown from the ship into the mouth of the whale; right, Dr. Bellah, and, below, the minister's conception of the space within the whale's stomach, equipped as a modern three-room cottage.

France Against Extradition Of Henry Blackmer

Perjury Action In United States Not Criminal Offense In France, Is Pointed Out

FRENCH ATTORNEY DEFENDS BLACKMER

(International News Service)

PARIS, Nov. 27.—When Henry M. Blackmer, missing American Teapot Dome witness, appeared in the eighth court of appeals today in connection with the United States government's demand that he be extradited to answer the charge of perjury in making out his income tax returns in Colorado, the French attorney general advised the court that the American demand should be thrown out.

The court announced its decision would be given later.

"Would you consent to return to the United States?" Blackmer was asked by the court.

"I refuse to return to the United States," replied the American.

Maitre Aubepin, defending Blackmer, made a statement to the court, saying:

Not French Offense.

"Blackmer is the victim of an American newspaper campaign. United States officers employed illegal methods in stealing my client's passport, thus holding him in France."

The attorney general address the court:

"The United States' demand for extradition should be thrown out, I think, as Blackmer's alleged offense is not criminal in France."

Blackmer's attorney followed, supporting this viewpoint.

"I agree that the attorney general states the proper interpretation of the law," said M. Aubepin.

Blackmer appeared in court wrapped in a heavy overcoat and wearing goloshes. He was discomfited when his lawyer's statements to the court were interrupted by the police who brought two grimy Belgian burglars into the room and put them in chairs alongside the millionaire American oil magnate. The Belgians are to be sent back to their own country on extradition warrants to stand trial.

Revenge Shooting?

Just four days after William J. Lucas was released from jail at Middletown, O., on bail, where he was held for the murder of John W. Cox, during a holdup, he was shot and killed. Police are holding Elmer Cox, 29, above, Middletown contractor, son of Lucas' alleged victim, for the shooting. Lucas has refused to make a statement.

French President Gets Raise In Pay

PARIS, Nov. 27.—The high cost of living having invaded the Elysee Palace, the home of the French presidents, Parliament today took cognizance of that fact and doubled the salary and expense allowance of President Gaston Doumergue. It fixed his total stipend at 3,600,000 francs a year, raising it from 1,800,000 francs.

Before the war the presidents of France received 1,200,000 francs gold each 12 months. This was equivalent then to $240,000.

Today's raise, which doubling the president's pay in paper francs, corresponded to only $144,000 at par and only $140,760 at current exchange rates.

Library Lessons Given Pupils At Union High School

Union Township Pupils Taught Library Uses By Miss Sterling

Classes at the Union high school are being taught the art of the library by Alice M. Sterling, city librarian. This afternoon at 1:30 the class of Miss Mildred Eppinger, which numbers 30, started their first lesson.

Tomorrow, states Miss Sterling, there will be another class. The classes are given an hour and a half at each lesson on account of the distance which the pupils have to come and also the inconvenience.

At these classes, the library is thoroughly explained to the pupils. How and why books are catalogued is explained and the use of the library catalogue by the pupils themselves will also be shown.

Ahepa Committees To Report Tonight

Make Ready For Annual Chapter Election On December 11

A meeting of the New Castle chapter No. 87, Order of Ahepa, will be held this evening in the Modern Woodmen's hall, East Washington street, at 8 o'clock. Officers urge every member to be in attendance.

A feature of the meeting will be the report from the committees on nominations for chapter officers to serve in 1929. The report is being read prior to the election of officers which will occur at the December 11 meeting.

Roaming Round With Richards

Some News, Some Views, But Mostly Just Observations Of Interesting Things Around New Castle

It takes very little to attract a crowd. Regardless of the hour, or what folks are doing they will drop their immediate activities to answer an alarm.

About 6:15 Monday evening the burglar alarm of the Union National Bank rang. A raucous clang it was, one that bespoke a hold-up or a safe cracking, or perhaps a "shot of soup" under the big vault.

In three minutes the street saw scores of men and women hurrying to the bank, although what they could have done in case of a robbery is something else to think about.

The alarm was a false one, and this bank's burglar alarm seems to go haywire every now and then. A mouse may have short circuited the alarm, or the deposits were too heavy or something happened. Anyway the bell rang and there you are.

Now that the eligibility of Ostrosky and Cuba have been settled there should be something else about which to protest New Castle's athletics. Why not protest the size of the crowds that attend the games, or the color of the policeman's uniforms? Or say protest the fact that Tommy Harper, the fullback, eats cantaloupe with a spoon? Or the way Ralph Gardner parts his hair?

Actually, these protests against New Castle are getting to be rather boring to say the least. They tried to protest Ralph Day a couple of years ago and the protest fell flat, now Ostrosky and Cuba and these protests fell of their own weight. When will they learn that Dr. C. C. Green, Principal Frank L. Orth, Faculty Manager Ralph Gardner, Coach Phil Bridenbaugh and thousands of fans in New Castle want nothing but clean sportsmanship, eligible players, a fair field and no favors?

The barrier at the points of Butler, Adams and Cascade streets is about ready to be lifted for which motorists will raise their Ebenezer. This is a tricky corner at best but with half the roadway blocked, it increases the hazard. The grading of Cascade street made it necessary but the work is nearly finished.

It does seem as though every now and then the lexicographer of this colyum, Attorney Homer C. Drake, has to start something. The latest fracas started around the lunch table a day of so ago over the word "vagaries."

You have probably pronounced it "vay-garies" or the ingular, "vay-gary." So have I, so has most everybody else. But the Lex insists that it is pronounced "va-garry" or "va-garries," accenting the last two syllables.

Unfortunately for the home troops, Noah Webster seems to agree with Homer, or shall we reverse it? At any rate they agree.

But, and get this but. To rate as a classicist, one should really pronounce it as "vay-gary," or in other words accent the ante penault. The word comes from the Latin vagari, a short ultima syllabled word and short ultimas should have the accent on the ante penault.

One should be very careful of his short ultimas, or his infinities. Just like one should be careful of his gasoline in wet weather. They come in handy.
